Kelowna, British Columbia, Thursday, July 26th, 1923

NUMBER 49

## WILL ASK CITY TO TAKE OVER BUILDINGS

Directors Of Kelowna Agricultural Society To Lay Proposal Before Council

A meeting of the Board of Directors of the Kelowna Agricultural Society was held in the Board of Trade Hall on Friday evening, to hear and consider a report by their legal advisers as to the status of the Society and to discuss ways and means of carrying out the resolution passed at a recent general meeting in favour of holding a fair this coming fall.

President C. B. Latta occupied the chair and also acted as secretary in the unavoidable absence of Mr. H. G. M. Wilson, who had a previous engagement. He explained that the meeting had been called on account of the appointment of Messrs. Norris & McWilliams as their solicitors to investigate the position of the Society in regard to its organization and assets, and to hear the results of their research. He was convinced that it would be disastrous to allow the Society to cease functioning; first, because it was a benefit to the community; second, because of its outstanding liabilities, which no one should be left to turn out; but the Directors wanted to know exactly where they stood, whether the Society was properly organized under the statutes and what were its assets. He called upon Mr. T. F. McWilliams to make his report.

Mr. McWilliams first sketched the history of the Society from a historical standpoint and gave an interesting outline of its career from the time of its establishment in 1894 as "The Agricultural and Trades Association of Okanagan Mission." A constitution and by-laws were adopted, and it was evident from the old minute-book that it was proposed to incorporate the association in 1896 under the act then existing, and then or later this was apparently carried out, although there was no definite record of it. The association came into being in 1915, under its original name, "Kelowna Agricultural and Trades Association," and the organization was placed under the Associations Act of 1914. This act was repealed shortly afterwards, and the association then came under the provisions of the new 1915 act. As his principal reason for advocating its scope and aims, and the subsequent amendments made in 1922, in which year the name of the association was changed to "Kelowna Agricultural Society." The position today was that, although there had been changes of name, there had been continuity of existence and therefore continuity of liabilities and rights.

When the association was formed the by-laws, as drafted up in 1896, should have been registered, but this was not done. Nor had there ever been a complete revision of the by-laws to bring them into line with the statutes governing the operation of the association, and he advised that, in order to put the Society in proper standing under the Societies Act, a complete set of by-laws be formulated, containing all the necessary particulars, and that the necessary amendments be made by that act. The by-laws could be obtained from the Registrar at Victoria and such as are not required by the act could be eliminated. The Society was defined as a body corporate with a seal, according to the act, and if they did not have a seal, they should obtain one. It was necessary, also, that the powers of the Directors be clearly defined.

With regard to ownership of property, Mr. McWilliams quoted from the Societies Act, clearly showing that wide powers were conferred as to ownership, purchase and sale, also for the issue of debentures. While the Society thus had all necessary authority to hold property, its ownership of assets apparently did not compromise anything more than what was held under lease from the City. The property used for fair purposes was purchased from Mr. T. W. Stirling by the A. & T. Association and was decided by the trustees of the latter to the City on certain terms of purchase, under which a lease was given to the Association by the City in 1910 for a term of ten years. The lease contained a proviso, permitting removal of all buildings upon the land by the lessee upon termination of the lease, on prior notice being given to the lessor, and the lessor was also given the right to purchase such buildings at a fair valuation. This original lease expired in 1920 and no renewal of it in writing seemed to have been given by the City, but the latter had shown no intention of disputing the right of the Society to the buildings upon the leasehold, and he could therefore safely state that they still belonged to the Society.

Should it be decided to wind-up the Society, Mr. McWilliams indicated several possible methods of procedure, such as an application to the Lieutenant-Governor-in-Council, under the Companies Act, or by sale of the buildings. On the other hand, if it was decided to carry on, he suggested three possible alternatives: first, self-help, by a vigorous campaign to raise the necessary funds to liquidate the Society's liabilities, which might be somewhat difficult; second, an appeal to the government, which might be induced to give aid in order to preserve the organization after so many years of useful existence; third, a request to the City to take over the buildings at a figure that would enable the Society to clear

## DR. RUTHERFORD PASSES AWAY AT OTTAWA

Those who met Dr. J. G. Rutherford, a member of the Board of Railway Commissioners, while he was recently in the Okanagan, will be grieved to learn of his death, which occurred at his home at Ottawa last Tuesday morning. It will be remembered that he was in a poor state of health while here and that he had to be hurriedly conveyed to Kamloops, where he was placed on the Canadian National train. The deceased gentleman was a veterinarian surgeon by profession and an expert on horse breeding. He was one of the veterans of the Riel Rebellion of 1885 and for one term represented the constituency of Macdonald in the federal house. After serving in the federal service as Dominion Live Stock Commissioner and Superintendent of Agriculture and Animal Industry, he was appointed a member of the Railway Commission in 1918.

off its liabilities, and to give a lease of the property for fair purposes, possibly exercising a measure of control over the Society's finances.

On motion of Messrs. W. J. Coe and J. N. Cushing, the report of Messrs. Norris & McWilliams was received, and a lengthy discussion followed. Mr. McWilliams was asked a number of questions, one of the most important of which was whether he favoured a long term lease from the City, to which he replied that the Society should have a long term lease in order to protect its equity in the buildings. Another point of importance was that no individual member of the Society could be held liable for its debts. Mr. McWilliams did not think the Society could make an assignment in bankruptcy, as it is not defined as a corporation under the Bankruptcy Act, but he had not had time enough to make a thorough research on this point.

Mr. Cushing expressed himself in favour of turning over all the buildings to the City for a sum equal to the amount of outstanding liabilities (about \$3,400) and a long-term lease.

Mr. Casorso and Mr. Coe pointed out that this was a mere fraction of what the buildings were valued at, and the latter emphasized the need of having some cash in hand in order to be able to hold a Fall Fair this year. Mr. Latta thought there should be a complete reorganization of the Society, that the present Board of Directors should resign and a new board should be chosen by the members, and that a complete set of by-laws should be framed, as advised by Mr. McWilliams. His principal reason for advocating reorganization was that the City Council could hardly be expected to take up the proposition which it was now proposed should be placed before them unless there was continuity of organization, which could be secured by providing that only a portion of the Board of Directors retire each year, and that the Council be represented thereafter by a new code of by-laws was needed, as some of the things had not been done quite in order in the past. For instance, the Board had appointed Associate Directors, and he asked Mr. McWilliams if there was any legal authority for such appointments.

Mr. McWilliams replied that there was nothing in the Societies Act specifically forbidding the appointment of Associate Directors, nor, at the same time, was there anything to provide for such appointments.

Mr. Coe pointed out that July was two-thirds gone, and it was necessary to arrive at an early solution of the financial question if a show was to be held in accordance with the resolution passed at the general meeting, as the Council might take a month to consider the matter, and it would then be too late to make arrangements for the Fair. Mr. Latta was convinced that a show should be held, but he firmly believed that it should be preceded by reorganization and a new Board appointed to carry out the wishes of the members.

A difference of view was expressed by some of the Directors as to the results upon the future of the Society, of failure to hold a show this year. Capt. G. D. Cameron considered that, if it failed this year, it could be revived next year, but Mr. Cushing and Mr. F. W. Pridham were of the opinion that, if dropped for a year, it would be practically impossible of resuscitation.

Mr. George Harvey favoured an appeal to the government, on the ground that it would give help rather than see the Society go. President Latta, on the other hand, saw little prospect of aid from such a source, as the Society would only get its proportionate share of the total appropriation for agricultural fairs, and there would be small hope of getting anything more than what was already earmarked, as no provision had been made in the estimates for any such extra grants.

Mr. Cushing thought that every possible source of assistance should be invoked, and that it would do no harm to approach the government besides endeavouring to make a deal with the Council.

Finally, a resolution proposed by Messrs. Cushing and Pridham was carried unanimously: That a committee be appointed to interview the City Council with reference to purchase of the Society's buildings by the City.

On motion of Messrs. Lambly and Pridham, President Latta, Mr. Coe and Secretary Wilson were chosen as the committee. A further resolution, moved by Capt. Cameron and Mr. Coe, was also carried: That, if the City does not wish to purchase the buildings, the committee appointed to deal with the matter take steps to realize the assets of the Society and pay its liabilities. The meeting then adjourned.

## HONOUR ROLL AWARDS AT KELOWNA PUBLIC SCHOOL

Results Now Available For Divisions IV and VII

When the Promotion Lists and awards of Rolls of Honour in the Kelowna Public School were published in our issue of July 5th, the results in several Divisions were not obtainable owing to the respective teachers having left for their vacation without turning in their lists. Since then, the awards of Rolls of Honour in Divisions IV and VII have come to hand, as follows:

**Division IV**  
Proficiency: Greta Sanders.  
Department: Mabel Nash.  
Punctuality and Regularity: Norma Hood, Muriel Marshall, Gordon Cooper.

**Division VII**  
Proficiency: Ned Wright, Mildred Lloyd-Jones.  
Department: Edna Dunn.  
Attendance: Vincent Varney.  
The results in Divisions II and VIII are still missing.

## FRUIT AND VEGETABLE CROP PROSPECTS

As Summarised By The Fruit Branch, Dominion Dept. of Agriculture

**British Columbia**

Apples.—Fifteen per cent to twenty per cent heavier than 1922, or 3,450,000 boxes.

Peaches.—One hundred and seventy-five thousand crates.

Plums and Prunes.—One hundred and seventy-six thousand, five hundred boxes.

Pears.—One hundred and three thousand boxes.

Cherries.—One hundred thousand boxes.

Tomatoes.—Ten thousand tons.

Onions.—Seven thousand, seven hundred tons. Slightly decreased acreage.

Potatoes.—Average, 18,200, or 95 per cent of 1922.

**Alberta**

Potatoes.—Ninety-seven per cent of 1922 acreage, or 41,200 acres.

**Saskatchewan**

Potatoes.—Ninety-seven per cent of 1922 acreage, or 54,000 acres.

**Manitoba**

Potatoes.—Ninety-seven per cent of 1922 acreage, or 38,000 acres.

**Ontario**

Apples.—Equal to 1922, or 809,500 barrels.

Peaches.—Ninety-five per cent of 1922.

Plums.—Japanese very light; European 70 per cent of last year.

Pears.—Light crop, 50 per cent of 1922.

Cherries.—Equal to 1922.

Onions.—Eighteen hundred and seven acres, but 30 per cent damage by weather.

Tomatoes.—Acreage less than 1922; growth poor.

Potatoes.—Ninety-three per cent of 1922 acreage, or 161,000 acres.

**Quebec**

Apples.—Fifty per cent of last year, or 57,000 barrels.

Potatoes.—Ninety-seven per cent of 1922 acreage, or 200,000 acres.

**New Brunswick**

Apples.—Seventy-five per cent of 1922, or 18,750 barrels.

Potatoes.—Ninety-two per cent of 1922 acreage, or 68,800 acres.

**Nova Scotia**

Apples.—Ten per cent heavier than 1922, or about 2,000,000 barrels.

Potatoes.—Ninety-four per cent of 1922 acreage, or 36,000 acres.

**United States**

From indications on June 1st, the Division of Crop Estimates, U. S. Department of Agriculture, forecasts a total commercial production of apples in the United States this year of 32,284,000 barrels as against 30,955,000 last year.

Reports from the State of Washington indicate that fruit crop prospects are better than ever before, with but few exceptions. It is estimated that the State will produce 35,000 carloads of apples, and a slight increase is expected in the tonnage of pears, peaches, apricots and grapes.

**England and Wales**

The British Ministry of Agriculture reported on June 1st that the prospect for apples was then far less promising than a month before, owing to serious damage by insect pests and some injury by frost. Pears were practically a failure; there was little or no blossom and the set of fruit was small.

**ALARMIST VIEW OF BRITISH TRADE AND INDUSTRY**

LONDON, July 26.—A grave view of the condition of British trade and industry is taken by a large industrial group of members of the House of Commons, who have sent a letter to Premier Baldwin outlining the plans of the group to meet the situation.

**RUHR VALLEY FRONTIER IS OPENED**

DUSSELDORF, July 26.—The frontier separating the Ruhr Valley from the rest of Germany opened at midnight. No official report has been received as to the resumption of traffic, but unofficial reports are that thousands of Germans are passing in and out of the occupied region.

## LAWN TENNIS

The annual Club Tournament of the K. L. T. C. will be held during the month of August and members are requested to write their names on the list posted up in the Pavilion. As usual, there are open and handicap events in every class and additional features provided are singles for girls and boys under 21.

All members should do their best to enter for every possible event, remembering that the Club Tournament is run solely for the benefit of members and that only through practice such as this, which gives them the opportunity of competing against all classes of players, can they hope to improve their standard of play. Even if one is unfortunate enough to be eliminated in first round, the experience gained is well worth the effort. The handicap events give the very weakest players a chance of coming out top. Members will please remember to put their entries in before the 30th of July, otherwise they will be out of luck, and should they not get their names on the lists they may find it hard to get a game going during the time the tournament is running. Special efforts are to be made to prevent the tournament from dragging and players losing interest. The finals will be played definitely on Thursday, August 30th, and the rules to get the rounds off by fixed dates will be strictly adhered to.

Tennis interests of the week are centered on the Mainland Tournament at Vancouver. Mrs. Lyell and Mrs. Tailleur being the only entries from our Club. Stress of work and hard times are responsible for the smallness of the entry from the K. L. T. C. Mr. Greville Seon and his sister, of Kelowna, are also playing at the Coast.

A matter of much interest to all local lawn tennis enthusiasts is the fact that Kelowna will be represented for the first time at the annual meeting of the B. C. Lawn Tennis Association, Mrs. Lyell having been appointed to represent the K. L. T. C. This Club, among other things, has applied for representation of the Interior of B. C. on the executive of the Association, and has sent in a nomination. Should their application be successful, Kelowna will have a definite voice in the control of lawn tennis affairs of the sporting world. The B. C. Lawn Tennis Association is affiliated with the All Canadian Lawn Tennis Association, the parent association of all, and one that has a great voice in the control of lawn tennis the world over.

## AQUATIC NOTES

The date of the Nelson Regatta has been changed to August 15, and will be under the joint auspices of the Nelson Rowing Club and the Kootenay Launch Club.

A challenge cup has been donated by the Nelson Daily News for the championship of Kootenay Lake. This cup will be presented to the winning four in the race between Kelowna and Nelson, and it is hoped to make this an annual event.

The preliminary programmes of the Kelowna Regatta to be held on August 8th and 9th, will be published this week.

For the benefit of visitors, arrangements are being made to hold the "Sicamous" in Kelowna till the evening.

A Preliminary Regatta will be held on the Thursday before the Regatta, in order to get times for handicap events.

American tourists passing through make complimentary remarks about the Park and are particularly fascinated by the lighting effects of the Aquatic Pavilion as seen at night from the lake.

Bathing and boating are now in full swing and make a scene of great activity and enjoyment. The four-oared boats and war canoe crews are practicing daily for the big Regatta events. These races will have a turn in the course so that spectators may see the progress from start to finish.

The Aquatic Club membership is growing daily and the Wednesday and Saturday night dances are being very well attended.

Mr. F. W. Peters, General Superintendent of the Canadian Pacific Railway in B. C., has accepted the invitation of the judges at the Regatta and has stated his intention to bring with him several people from the Coast who are interested in the Okanagan and who are looking forward to seeing the principal events. Word has been received from Mr. J. A. MacKinnon, M.P., and from Mr. J. M. Robinson, of Nanaimo, that they are also willing to act as judges.

The B. C. Championship event which has been chosen by the Aquatic Club for this year is the 220 yards swim for boys.

Lieut.-Col. G. Chalmers-Johnston, of the Soldier Settlement Board, Vernon, has kindly donated a challenge cup for the 300 yards swim for boys under sixteen years of age. This cup will be competed for annually.

## DEATH OF WELL-KNOWN SIMILKAMEEN PIONEER

Mr. R. L. Cawston Died Suddenly Yesterday

Old-timers throughout the Okanagan will greatly regret to hear of the death of Mr. R. L. Cawston, J.P., of Cawston, which occurred yesterday. The news reached Kelowna in the afternoon, but further than that the deceased gentleman suddenly expired at his home, no details were given. Mr. Cawston, who was one of the original pioneers of this portion of the Interior, settling in the Similkameen Valley when it could only be reached by the Dewdney Trail, was one of the best known of the old-time cattlemen. For a time he was a partner of the late Mr. T. Ellis. Recently he had been failing fast and had been residing at his home at Cawston. He is survived by his son, Mr. R. L. Cawston. The funeral will be held this afternoon, the service being taken by the Ven. Archdeacon T. Greene, of Kelowna, who, together with Mayor D. W. Sutherland, motored to Cawston this morning.

## COMRADES PAY LAST HONOURS TO VETERAN

The Late Mr. Stephen Hanlon Is Accorded A Military Funeral

It is seldom that the death of any citizen is so universally regretted as that of Mr. Stephen Hanlon, which took place at the Kelowna General Hospital on Monday, the 23rd, and in every way possible the whole community showed their appreciation of the soldier character of the deceased.

Mr. Hanlon, who was of Irish descent, was born in the parish of St. Paul, London, in 1876, and at the age of eighteen enlisted in the King's Royal Lancaster Regiment, later on serving in the South African War in the Mounted Infantry and seeing active service in Cape Colony, the Orange Free State and the Transvaal.

On coming to Canada ten years ago, he entered the employ of the Bank of Montreal at Vancouver, and had been in the same service at Kelowna for the past four years. While resident here he made a host of friends among all classes of the community.

In 1915 he again enlisted for active service, joining the 54th Kootenay Battalion of the Canadian Expeditionary Force, and served with that unit in France, his exchange being reversed. He had enjoyed indifferent health and on the 18th of this month was taken to the Kelowna General Hospital, where he underwent an operation for appendicitis. His demise, which was a great shock to his friends, took place on the morning of the 23rd, the cause of death being acute dilatation of the heart, gangrenous appendicitis being a contributory reason.

Mr. Hanlon was a devout Roman Catholic and a Knight of Columbus, also a member of the Benevolent and Protective Order of Elks, besides being a member of the Great War Veterans' Association, and all three societies were well represented at his obsequies and contributed towards making them impressive.

The funeral procession left the family residence on Eli Avenue at 8.30 a.m. yesterday, the coffin being draped with the Union Jack, on which were displayed the war medals and service card of the deceased. It was followed by a large number of cars containing people representing every line of life in Kelowna, besides his immediate relatives and personal friends, and the coffin, escorted to the Roman Catholic Church by a military escort of which Lieut. W. Shugg was in command, and which was composed of Sergt. Major F. G. Pharey, Sergt. Frank Davis, Corp. H. Barlee, Ptes. W. Middleton, J. W. Barlee, R. Atherton, J. N. Pringle, R. J. E. Stone, G. Matthews and Trooper W. Campbell. Full military ceremonial was carried out, the cortege proceeding very slowly, the soldiers with reversed arms. On arrival at the church, the Rev. Father Verbeke, P.P., and the pall bearers, Capt. J. Evans Wright and Lieut. T. G. Norris, representing the Elks, Sergt. Chas. Gowen and Pte. Ed. Burke, representing the Great War Veterans, and Lieut. F. J. Moorat and Corp. A. H. Casorso, representing the Knights of Columbus, bore the coffin to the altar, where it rested during the service.

After a requiem mass had been celebrated by the Rev. Father Verbeke, the procession was formed again and proceeded to the Roman Catholic cemetery, where prayers were offered at the graveside. There the firing party in honour of their departed comrade-in-arms, and all storied departed comrades-in-arms, was sounded by Second B. McCarthy, who with Patrol Leader H. Mantle and Scout R. Williams, represented the Boy Scouts.

Floral offerings consisted of many beautiful wreaths and crosses, which were sent by his former comrades in the Great War, The Great War Veterans' Association, The Knights of Columbus, The Benevolent and Protective Order of Elks, The Occidental Fruit Company, The Bank of Montreal, The Royal Bank of Canada, Mr. and Mrs. James Small, Mr. and Mrs. Hoare and Lily, Dr. and Mrs. W. J. Knox, Mr. and Mrs. Archibald, Mrs. J. H. Brod, Mr. H. M. Cooper and boys, Mr. B. Walker, and Mr. and Mrs. F. J. Moorat. Large numbers were also sent by anonymous friends.

The immediate relatives, resident in

## PRESIDENT HARDING IS GUEST OF VANCOUVER

Chief Executive Of United States Expresses Gratitude For Warmth Of Reception

VANCOUVER, July 26.—President Harding is the guest of the City of Vancouver today. Answering an address of welcome tendered by the Hon. J. H. King on behalf of the Dominion Government, the President stated that Canadians were the best neighbours in the world and that he rejoiced to visit Canada. He felt grateful for the warmth of the welcome accorded to him. We are two great democracies side by side, and if this visit tends to increase our friendship, I am happy to come," he said.

In an address later, the President stated: "Our protection is our fraternity, our armour is our faith. Do not encourage any enterprise looking to Canada's annexation of the United States. Let us go our own ways along parallel roads, you helping us and we helping you. It is public will, not public force, that makes for enduring peace."

## LLOYD GEORGE MAKES ATTACK ON POINCARÉ

BRISTOL, July 26.—Lloyd George made a fierce attack on M. Poincaré in a speech here last night. He accused the French Premier of wickedly distorting his speeches and expressed the hope that that the British efforts towards peace would not be converted into more fuel for further devastation by war.

From July 1901 to the end of December 1922 no less a sum than thirty-six million dollars has been disbursed by the federal assay office at Vancouver in settlement of some twenty thousand deposits. In addition to purchasing placer gold this institution has benefited the mining and other communities in other ways. When the gold market was closed to local jewellers during the war, it furnished them with the necessary supplies and at the present time this business has become very firmly established.

## POULTRYMEN'S EXCHANGE MEET AT VERNON

Affairs Of The Okanagan Branch Will Be Discussed

It will interest those of the poultrymen who have joined the Okanagan Valley Branch of the B. C. Poultrymen's Exchange, to know that the directors from Vancouver will make a trip to Vernon about the 1st of August, when the affairs of the Okanagan branch will be fully discussed. It is hoped at this meeting, which the directors are attending at their own expense, and at considerable personal inconvenience in some instances, to explain to the poultrymen a number of matters of time fully conversant. It is understood that an effort is being made just now to flood the Vancouver market with Alberta eggs, which are being shipped to the retailer at ten cents a dozen, and this has had a depressing effect on the B. C. market price. It is thought, however, that this competition at such a low figure cannot last long. At the date of writing local producers are receiving eighteen cents for their eggs, which cost the Kelowna retailer thirty cents and which are retailed in the stores at thirty-five cents. The Okanagan branch of the Co-operative is gradually paying for stock in trade, and the five cents charged the producer includes this item of expense. The eggs from here now go to Vernon by truck instead of by express.

Messrs. S. T. Elliott, J. J. Hall and D. Ennis, who left on the 13th on a trip to Spanish Creek, which lies five miles to the north of Cedar Creek, Cariboo, returned last Friday, having had a very pleasant motor trip, and are greatly enthused over the mining prospects in that region. They travelled the first day as far as Clinton, a distance of about 213 miles from here and put there for the night. The road from here to that point they describe as being first-class all the way. The next day they made Williams Lake, which is becoming a place of some importance, and is a divisional point on the P.G.E. railway and the main mining recording office for that district, arriving on the Sunday evening at Beaver Lake and on the day following at Spanish Creek. There they spent the time at their disposal in examining the placer leases which Mr. Ennis secured last fall, and which are now owned by the Ennis Mining Company, Ltd., a company just incorporated with headquarters at Kelowna, and in which Messrs. D. Ennis, S. T. Elliott, J. J. Hall, W. R. Foss, S. T. Elliott, J. J. Hall, W. R. Foss, S. T. Elliott, and H. D. Wright of Vancouver are the principal shareholders. Mr. Ennis reports that they were well satisfied with the ground secured, especially as rich strikes have quite recently been made on property adjoining both below and up-stream. He leaves very shortly to begin active development work. Those who made the trip report that crops are exceptionally good in the Cariboo district this season and that that section of the province is on the eve of an old-fashioned boom.

Kelowna, who are left to mourn Mr. Hanlon's demise are his widow, Mrs. Hanlon, and his daughter, Mrs. B. Lizzie Hanlon, and his daughter, Joan, a little girl three years of age, to whom the sympathy of all will be very sincerely extended.

## GAME REGULATIONS FOR 1923

Open Seasons And Bag Limits In The Eastern District

The Game Regulations for 1923 were promulgated in last Thursday's issue of "The British Columbia Gazette." The Okanagan Valley is included in the Eastern District, which is defined as including all that portion of the Province situate and lying to the east of the summit of the Cascade Mountains and south of the main line of the Grand Trunk Pacific Railway, and we therefore give the rules applicable only to that district.

## OPEN SEASONS

(Dates of commencement and close are inclusive.)

### Big Game

Moose.—Of the male sex, in the Electoral District of Cariboo and those portions of the Okanaga and Fort George Electoral Districts situate and lying to the south of the main line of the Grand Trunk Pacific Railway, from September 15 to December 15.

Caribou.—Of the male sex, throughout the Province, except Queen Charlotte Islands, and except all that portion of the Province lying to the south and east of the main line of the Canadian Northern Railway, from September 1 to December 15.

Wapiti (Elk).—Of the male sex, in the Electoral Districts of Fernie, Cranbrook and Columbia, from October 1 to October 20.

Mountain Sheep.—Of the male sex, in the Electoral Districts of Columbia, Cranbrook and Fernie, from October 1 to November 15. In that portion of the Electoral District of Lillooet situate and lying to the west of the Fraser River and to the south of the Hanover-Canton wagon road, from the Fraser River bridge at Churn Creek to the northern boundary of the Lillooet Electoral District from September 1 to November 15.

Mountain Goat.—Throughout the Eastern and Northern Districts, except that portion of the Eastern District south of the main line of the Canadian Pacific Railway from September 1 to December 15. In that portion of the Eastern District south of the main line of the Canadian Pacific Railway, from September 15 to December 15.

Bear.—Throughout the Eastern District, from September 15 to June 30, 1924. Bear may not be trapped in any portion of the Province.

Deer, Mule, White-tail and Coast.—Bucks only, throughout the Northern and Eastern Districts (except that White-tail Deer may not be killed in those portions of the Eastern District known as North and South Okanagan, Similkameen and Greenwood Electoral Districts), from September 15 to December 15.

### Fur-Bearing Animals

In the Northern and Eastern Districts, all fur-bearing animals (except Beaver), north of the main line of the Canadian Pacific Railway, from December 1 to April 30, 1924.

Beaver.—In the Northern District and in the Electoral Districts of Prince Rupert, Omineca, Cariboo and Fort George situate and lying in the Eastern District, from December 1 to April 30, 1924.

In that portion of the Eastern District south of the main line of the Canadian Pacific Railway there shall be close season on all fur-bearing animals for a period of three years, except in regard to Musk Rats in the Columbia Electoral District, where the season will be open from December 1 to April 30, 1924.

### Ducks (except Wood and Elder Ducks), Wilson Snipe, Coots, Black-breasted and Golden Plover, Greater and Lesser Yellowlegs.—In the Northern and Eastern Districts, from September 15 to December 30.

Geese and Brant.—In the Northern and Eastern Districts, from September 15 to December 30.

Geese and Brant.—In the Northern and Eastern Districts, from September 15 to December 30.

Grouse and Ptarmigan (except Prairie Chicken and Sharp-tailed Grouse).—In the Northern District and those portions of the Omineca, Fort George and Cariboo Electoral Districts, from September 1 to November 15. In the remainder of the Eastern District, from September 15 to October 15.

Prairie Chicken and Sharp-tailed Grouse.—In the Electoral District of Fort George, situate and lying to the north and east of the Rocky Mountains, from September 7 to October 15.

Quail.—In the Eastern District, in those portions known as the Electoral Districts of Similkameen and South Okanagan, from October 20 to November 17.

Pheasants (except Golden and Silver Pheasants).—In the Eastern District, cock birds only, in the Electoral Districts of South Okanagan and Similkameen and in the Municipality and District Municipality of Salmon Arm, from October 20 to November 17.

### BAG LIMITS

## DIAMOND RINGS

From Pettigrew will give the recipient added pleasure. Our Diamonds are high in quality, mounted in distinctive settings.

If you have a pet idea for your own ring we can carry it out on the premises, give you sketches and estimates, and do the manufacturing.

Let us examine your Diamond Setting. We note lately that a large number of claws are worn. Do not take chances on losing a valuable stone. This free examination is part of our store service.

**PETTIGREW**

PROMPT DELIVERY Cash with Orders  
**THE KELOWNA SAWMILL CO., LTD.**

## IT IS YOURS

Five-sixths of the timbered area in B.C. belongs to the People.

Each year, it is increasing in value as the more accessible timber is cut.

In 1922 there was received from the sale of such timber the sum of \$620,000.

This helped to keep your taxes down, and to build up the Province.

Green Timber is British Columbia's assurance of Perpetual Prosperity.

## WHY BURN IT?

## BOY SCOUT COLUMN

Troop First Self Last

Edited by "Pioneer."

July 24th, 1923.

We are this week giving the results of the other competitions held at camp besides the sports, and first and foremost came the Lynx and Owls, who shared their tent together under P.L. John Aitken of the Lynx and Second Gordon Haug of the Owls, by winning the daily Tent Inspection with a total of 194 points. Their tent and equipment were consistently neat throughout the camp period and while they did not secure a first every morning they were never very far away from the top. They also secured a first for the most originally and best decorated grounds. They were followed in the order named by the Otters with 187 points, the Beavers with 186, the Eagles and Cougars, who also shared a tent, with 184 and the Wolves with 179. P.L.s Montgomery and Beddall of Pentiction were posted to the Beaver and Otter tents respectively but, save in the Tent Inspection Competition, their marks did not assist these Patrols. In the Tenderfoot Competition the order of the Patrols was as follows:—Pentiction, Otters, Cougars, Owls and Lynx tied, Wolves and Beavers and Eagles tied. In the Mile at Scouts' Pace came the Eagles Pentiction, Beavers, Otters, Lynx and Cougars. One of the Eagles, Scout Gordon Cooper, did his mile in the twelve minutes exactly and their other representative, Scout Eric Lysons, was only ten seconds out. The Wolves, who had five representatives, did very well by obtaining an average error of only 14.8 seconds. In Kim's Game the Otters secured a first, followed by Pentiction, the Owls, Lynx, Wolves, Cougars, Beavers and Eagles. In the 2nd Class Ambulance the Lynx obtained first honours followed by the Otters, the Owls and Beavers tied, the Wolves, Eagles and Cougars. In the Knot Tying Blindfolded the results were the Beavers, Otters, Cougars, Pentiction, Lynx, Owls, Wolves and Eagles. In the Game of Finding and Reporting with five named objects, in this particular instance two wild strawberries, a red berry, a purple flower, a white flower and an all-white pebble, the Lynx came first, followed by the Owls, Eagles, Beavers, Wolves, Cougars and Otters. And, lastly, in the Memory Game of Quick-sight the Lynx came first, followed by Pentiction, the Eagles, Cougars, Wolves and the Beavers, Otters and Owls tied. The voting just prior to the last or swan-song parade of the camp, for the best Scout in camp, bearing in mind observance of the Scout Promise, resulted in P.L. Gordon McKelvie of the Wolves securing this honour, followed by P.L.s John Aitken and Fred Morden, who tied for second.

It befell to the lot of P.L. Morden to sustain the only serious, or rather severe accident during the camp, he having twisted a ligament in his hip during a dispatch relay race of the last day before breaking camp. The accident happened almost a mile from camp and P.L.s Cunningham and Beddall carried him this distance in a four-handed stretcher. We are very glad to state, though, that after spending the rest of camp and a few days upon returning home in enforced leisure upon his back, P.L. Morden is now almost entirely A.I. again.

The last camp-fire produced something which none of our camps hitherto have, namely, a solo. Second Gordon Haug and P.L. Montgomery of Pentiction decided they would take their Entertainer's Badge test, and as the rest of us were agreeable to anything that night we consented to be the audience. They both sang the same song, and what we do not now know about where the flies go in the winter-time would not be in the winter-time. Then they both told a story and Second Haug entertained with selections on the mouth-organ. P.L. Montgomery decided to complete this part of his test by playing the piano before another audience. Our audience now began clamouring for a dance, and a dance they had on the parade ground, surrounded by a semi-circle of lanterns. Seriously speaking, we wish to offer our very sincere congratulations to the above two winners of their Entertainer's Badges, the obtaining of which requires a great deal more pluck than the most of us have.

We wish to thank P.L. Aitken for towing the row-boat with his launch both to and from camp and Mr. Foot of the Aquatic, for renting us a boat at a very low figure indeed.

The Westbank Troop went into camp yesterday for a week at Bouchette Point and were kind enough to extend an invitation to any two members of our Troop to spend the camp with them. Unfortunately, our own camp being just over, we were unable to find any two members of our Troop who could attend but none the less we do appreciate the kind invitation.

The Naramata Troop are hiking to Kelowna from Naramata over the mountains this coming week-end and while in Kelowna will probably make our Hall their headquarters. They expect to be here for Saturday and Sunday.

No change will be made in the present Provincial Act which provides that the minimum wage for women and girls employed in the manufacturing industries shall be \$14 per week for forty-eight hours. This was settled at a conference between three representatives of employers, three delegates from labour and three business men representing the general public, which took place at Vancouver last week and was presided over by the Chairman of the Minimum Wage Board, Mr. J. D. McNiven.

The Boy Scouts left Monday the 23rd, for their annual camp. They are camping this year in the Blackwood field near Rea's Point. The Troop this year is in charge of Assistant Scout Master W. G. Gore and Troop Leader W. H. Moffatt. Saturday, the 28th, will be visiting day, and on the same day the Cub pack with their leader, T. Drought, will join the camp and stay over the week-end.

## KELOWNA WOLF CUBS

There will be no more parades of the Cubs until further notice.

Cubs Taggart, Lewers, C. Pettman, and all others who were two years of age by the end of June are eligible to go into the Boy Scouts this fall, and the Cubmaster will be glad to have the names of those who wish to transfer so that arrangements can be made with the Scoutmaster.

We took advantage of the visitors' day at camp to secure the services of Mr. Foster as judge for the Summer Badges, but, owing to the very bad wind prevailing, only part of the tests were taken and they can be completed at the Aquatic by arrangement with the Cubmaster. The following boys have qualified for the badge with the exception of floating for one minute without moving hands or feet (the "dead man's float" barred), and they had better get together and fix a date so that all may be passed at the same time: Sixers Morrison, Marr, C. Pettman, Simmons, Poole and Harvey, and Cubs Benmore, Cross, Todd, Ross and Taggart.

As so many things are lost each year, the Cubmaster took a very careful look around the camp before the truck left, with the result that the following articles are now in his possession and can be claimed any time by the owners: One large lacrosse ball, one small lacrosse ball, two tooth brushes, a pair of stockings, a swimming costume, a fork, and a dainty pair of running shoes (found hanging on a tree on the site of the Girl Guides' camp).

Owing to the soothing effects of camp life, the writer of our Cub Notes fell asleep last week instead of rushing his copy into the hands of the printer, with the result that some friends were disappointed when looking through the paper for a description of the Cub's doings. We have little to say, however, on this matter; the Cubs will tell the story themselves. We faithfully stood by the cook at certain hours of the day and certainly enjoyed his fare. We took two long hikes, thoroughly inspected the work the Girl Guides had put on their tent decorations (congratulations to the Robins'), played Prisoners Base each day, and spent the rest of the time in the water!

On Sunday we had a host of visitors and were pleased to hear all the good things they said about the camp. For the benefit of some inquirers we would point out that the Cubs are not Scouts and a longer time at camp is not deemed advisable. The oldest Cub is still a young boy, whilst the majority of the Scouts are young men and have to be treated very differently. The great benefit the Scout enjoys will be the proportion of the Cub in a short time; meanwhile he looks forward to the future which will find him (we hope) within their ranks.

For the thoughtfulness and kindness of our many friends we say, "Thank you!" We realize that without the offered aid little could be accomplished. The 1923 camp proved the most successful yet held, and many joined in giving the boys a real holiday, even the genial truck driver stopping on the way home to purchase refreshments at the Mission Store. We trust this will catch Charlie's eye!

## LETTERS TO THE EDITOR

"APRICOT SEASON IS NOW AT ITS HEIGHT"

Kelowna, July 24, 1923.

The Editor, Kelowna Courier.

"Water street dealers were almost a unit this morning in stating that consumers would be well advised to provide at once for their canning requirements on apricots. They say that while there may be good supplies next week, there is every indication that prices will be higher. The uniform price along the row this morning was \$1.25 per crate. Advice from Wenatchee state that 'hill' cots are to be shipped starting at the week-end. It is pointed out that these apricots are picked up the mountain side and are the last to be marketed in Washington."

The above appeared under big headlines, "APRICOT SEASON IS NOW AT ITS HEIGHT," on July 19th, in the "Vancouver Province." Whose season? The Americans?

In view of the fact that the Okanagan will have some sixty-five thousand crates of apricots to market within the next two weeks or so, it is, to say the least, rather astonishing that a wide awake progressive Canadian paper, such as the "Vancouver Province," could display such gross ignorance as to the knowledge that there is such a fruit growing district in our own province as the Okanagan Valley. We cannot imagine any American paper publishing anything so misleading and so detrimental to the interests of their people. If the wholesalers and the press both are to unite in persisting to work for the American grower and against their own Canadian comrades, it is high time that strong measures be taken by every public body and every grower and person interested in the future welfare of our valley, that this most serious condition be remedied.

This same propaganda was carried on with cherries, not only at the Coast, but on other fruits, as has been done in the past. It is a lamentable fact that our markets are filled with American fruits before our own comes in, brought in by the jobbers' rings, many of whom are themselves Americans, and apparently encouraged by the press, to allow itself to be used as a medium for the dissemination of this jobber's slogan of "Buy American Fruit First."

It might be interesting to note in this connection that the State of California, experiencing this same difficulty in respect to Mexican fruit coming into their State before their own was ready, passed a law prohibiting the importation into their State of certain fruits which they themselves also grew. If this bringing in of American fruit in wholesale quantities is to continue, the grower in the Okanagan might just

## WILSON LANDING AND WESTSIDE

Master Donald McDonald, of Vernon, is spending a short vacation at Cotvale Ranch.

Mrs. T. R. Qualie has met with an accident causing severe pain in one of her feet. We shall be glad to hear that she is feeling fit again.

Apricots are falling considerably. Peaches are a promising crop. Early Bings are a light crop, but the late variety are loaded with fruit almost to the breaking point.

Mr. Norman Day's many friends here are very glad indeed to know that he is progressing so favourably after his recent severe accident and wonderful escape from a more serious one.

The Kelowna Sawmill Company's camp is closed for its summer vacation.

## EAST KELOWNA

A lot of thinning has been done during the past week and the quality of the fruit will be better than ever before. It requires, however, great courage to do enough thinning. We got a good tip from a rancher the other day. We were saying that we never could summon up courage to thin our crop sufficiently. "Well," he said, "I never use the word thinning. It suggests to my mind a diminution in my crop. It is a very unfortunate word. The result of taking off the poor and small apples is to give you really more fruit in the end. Why not use a word to express this? We all know from Professor Cove the effect of a few words on the subconscious mind. Why not say, 'I'm thickening my crop? Every day I'm thickening my crop?'"

On Sunday those irrigating were surprised to see their water go off. About fifty feet of the wood stave syphon in Hydraulic Creek had gone out. However, work was commenced on Monday morning and the water was on again on Tuesday afternoon. A certain amount of natural flow water was available during the break.

There is a gang of men repairing and re-flooring the Belgo bridge.

We hear complaints of a plague of cutworms. One rancher showed us his place. He has a fine stand of hairy vetch which the cutworms had been feeding but as the vetch became dry and woody the cutworms deserted it and attacked the trees. They had made a clean sweep of an apricot tree and some crabs. The leaves were all eaten and also the fruit except the stones of the apricots. Out of curiosity we counted over 300 cutworms on one small vetch away from the trees it seems possible to keep them off but if the vetch is allowed to touch the lower limbs the cutworms in one night can easily strip a tree.

Mr. Macfarlane, of the Kelowna Growers' Exchange, was round making crop estimates. He also left tin plates advertising the O. K. brand and we nailed one up on our gate as in duty bound but we don't like the wording. "Quality fruit?" We don't want to clutter the world that ours is all right as if the Kelowna growers could hard enough they can make "quality fruit" even out of ours.

It is curious how places differ as to water requirements. One rancher is getting water on this week for the first time this season.

We are glad to see Capt. Graham following the example of Mr. Soames and Col. Lindsey by trying 3-inch pipe instead of wooden irrigation flumes. It is by the experiments of our neighbours that we learn of new methods of making progress.

The many friends of Mr. J. Dunn will be glad to hear he has "struck oil" in a metaphorical sense in his new home in California.

The Benches have always been a favourite hunting ground of Dan Cupid. His latest victims are Miss Nellie Rowley and Mr. T. P. Hulme, local manager for P. Burns & Co., Ltd., whom we congratulate on their engagement.

Mr. H. Littler, of Victoria, has been the guest of Mr. and Mrs. A. Shaw.

Mr. Perret, of Fish Creek, Sask., is visiting his son, Mr. G. E. Perret. He reports there is the promise of an immense wheat crop in his neighbourhood, but the straw is turning yellow owing to standing in water so long.

Mrs. A. Wright has gone on a short trip to Montreal.

On Tuesday the Trustees of the S. E.K.I.D. had an all-day sitting. The reservoir is still over 21 feet. A leak has started at Dam 3 which is causing anxiety but is being carefully watched. A by-law enabling a rancher to install a private system on a spring was read three times. Cheques were authorized to be drawn which will be practically the last payments on the purchase price of the C. C. I. and S. K. L. companies. It is rather hard luck on these two companies that they have had to wait so long for their money but nobody ever dreamt there would have been so much legal red tape to surmount. Whenever now the secretary mentions the words "right of way easement" a shudder passes through each of the Trustees. Even at 6 p.m. some of the work was not concluded and the next meeting was fixed for Tuesday, 31st.

as well pack up and go to Washington where his fruits will be in demand not only at home, but in Canada as well. Yours truly, GEO. ROWCLIFFE, LIMITED.

## Be Prepared

Picking Time will soon be here. Come in and inspect our Stock of PICKING BAGS AND BUCKETS Also Good, Strong PICKING LADDERS at 60c per foot. All sizes kept in stock

WE WILL HAVE OUR GASOLINE TANK INSTALLED THIS WEEK

Pay us a visit to our new store next the Creamery.

Open during the noon hour and Saturday nights.

Mr. R. Hewlett left last week for Oliver, B.C., where he intends to contract some logging work.

Mr. Marshall of the Water Department, was a business caller Monday.

Mr. and Mrs. Wm. McKay left last week for Manitoba, for a six weeks' visit.

Cherry season is nearly over, cots are beginning to move through the packing house.

Mr. T. Reese now has the packing shed moved on to the cement foundation and will soon have his contract completed.

The following fruit growers have been laying on the Gellatly ranch the past week: Wm. Hewlett, T. B. Laing, C. Butt and H. Hardwicke.

Mr. Groves, the District Engineer, was called over Tuesday, the 17th, to help the Trustees solve a difficulty in the distribution of water.

Mr. A. Fortune, Mrs. Fortune, Miss M. Fortune, Mr. Young and Mr. Bara-

An editor recently became engaged, and this is how he became disengaged. "Do, by all means," he replied absently, "but kindly write on one side of the paper only, and enclose stamped envelope for return in case of unsuitability."

## THE TRENCH SILO

The trench silo has been tried and found successful for Manitoba conditions on the Brandon Experimental Farm. The silo was made and filled in the autumn of 1922. A description of it appears in the report of the Superintendent for last year. A suitable location from the standpoint of convenience, drainage and shelter from drifting snow was selected. The excavation was made on a southern side of a gently sloping hill convenient to the open steer-feeding pens and sheltered to some extent by native oak trees. The trench was dug thirty feet long, twelve feet wide, and eight feet deep. The walls along both sides and at one end of the silo were kept perpendicular, while the other end was made to slope to the ground level in order to make the drawing out of silage during the winter. The silo was filled in the usual way with an ensilage cutter and the silage thoroughly tramped in by the men who were spreading, and by a horse which was ridden over and over the loose surface during the operation of filling. The silo was found when filled in this manner, to accommodate forty-five tons of corn silage, moderate in weight and packed in the centre by two land packers. A small sleigh with a box large enough to hold about six hundred pounds of silage was used to draw the silage to the steers being fed in the open feed-

lots. During the early part of December the weather was unusually severe, the temperature going as low as thirty degrees below zero. At this temperature the silage did not freeze to any appreciable extent with the open end of the silo exposed. A thick layer of straw was afterwards left on the exposed end to protect the silage to some extent from the cold, and the silage when removed was found to be in excellent condition.

Grass ranges throughout the Interior, but especially in the northern and central portions of the Province, have made a wonderful growth this year according to reports received by the B. C. Department of Agriculture. This condition will lead to a very rapid recovery from the effects of past over-grazing, if stockmen keep their stock away from the lower ranges during the midsummer season. Owing to the improved feed on the ranges, beef cattle are looking exceptionally well and more early beef will be available for shipment this year than ever before.

Twenty carpenters are being employed to work on the mill at Allenby, where heavy machinery is being installed preparatory to commencing active development work at the Copper Mountain mines. The work of repairing the railway spur from Princeton is also progressing, some eighty men being employed.

## THIS MEANS YOU EVERYONE

Is interested in the Success of the Associated Growers, "then every day in every way," BOOST, PROTECT AND ASSIST that which will surely save your investment in the Fruit Industry or any investment depending on the success of the Fruit Industry.

It is said that if you produce a high class product making it the best, "The World will wear a pathway to your door"—and with FAITH and COURAGE we will succeed even if others have failed.

See that your part is well done in growing the fruit and that your fruit is as near perfect for shipping and character as you can make it before you deliver it to the packing house.

Get the inspiration of Faith in your Company and its Future that it deserves, and impart that to your neighbour.

ASSOCIATED GROWERS OF B. C. LTD.  
G. A. BARRAT, Local Representative

## THE PRAIRIE FRUIT MARKET BULLETIN

Current Prices and Market Conditions (From the Weekly Bulletin issued by J. A. Grant, Fruit Markets Commissioner, Calgary.)

Calgary, July 21, 1923.

The weather during the week has been more settled, with bright sunshine and summer heat.

Crops are in excellent shape. The Big "Y" Company, of Yakima, has a representative here interesting the jobbers in Washington fruit. Apples are coming in carlots from there. B.C. field crops and tomatoes are beginning to arrive.

Over-abundant moisture in the berry and cherry growing districts of B.C. has been ruinous to condition of carlots arrivals. Almost every car showed the result of too much moisture, with mould developing to a greater or less degree. L.C.L. shipments suffered, but not to the same extent.

Apparently moisture laden fruit does not carry well under ordinary refrigeration. If vacuum air circulation system could be made available under most weather conditions, we believe much loss could thereby be avoided.

Today (Friday) cars are arriving in good condition. The wholesale trade are making an effort to stabilize prices for good berries, which are now forthcoming. Markets are all bare of good berries. If they continue to arrive in good shape, more satisfactory returns may be looked for.

Two cars of loganberries arrived from Vancouver Island. One stopped in Calgary; while the other rolled to Saskatchewan. The package and berry pack was O.K., but the condition was soft, and low prices prevailed. It was difficult to place so many loganberries at even a low price.

A quantity of raspberries from the Okanagan arrived soft this morning and were sold at \$2.50 per crate. This means \$2.00 to the wholesale trade, \$2.50 retail price.

Calgary Wholesale Prices	
Strawberries, No. 1, crate	3.00
No. 2	2.50

Calgary Car Arrivals  
July 11th to 18th  
From B.C.—2 cherries, 2 mixed berries, 1 H.H. tomatoes, 1 new potatoes, 4 mixed vegetables (Vernon).  
From California—2 mixed fruit, 1 cantaloupes, 1 watermelon, 1 deciduous fruit.  
From Walla Walla—1 onions.  
From Washington—3 mixed fruit, 1 apricot.  
From Alberta—1 new potatoes, 1 mixed vegetables.  
From Manitoba—1 mixed vegetables.  
Heavy L.C.L. shipments from B.C. of berries and tomatoes.  
Edmonton, July 19th  
There has been quite a large quantity of raspberries and loganberries on the market since our last report, all of them showing some shrinkage, and one shipment was in terrible shape. There have only been some odd shipments of strawberries until Thursday, when a half car arrived from Calgary. The L.C.L. shipments of this part car is also showing some. Altogether, we would say that the berry business this year has been very unsatisfactory for the jobber, and it naturally follows that this means it has been unsatisfactory to the grower.

Quite large quantities of cherries have been on the market every day as they are not cleaning up as well as might be expected. The trade are complaining about the price being too high and that the consumers will not buy at the prices that are being asked. Many of the cherry shipments have also shown shrinkage on arrival.  
There was a splendid car of California outside-grown tomatoes in lug boxes arrived during the past week. This is the best car of outside-grown tomatoes that has been on the market for a long time. There have been quite a number of hothouse tomatoes brought in and market on them has been somewhat overdone.  
The market has been supplied this week altogether with new vegetables from B.C. There are a few local potatoes on the market, but no quantity to bother with as yet.  
Blueberries have started coming in from Kenora during the past week. First car of small fruit from the northern part of the States arrived from Lewiston early this week. Car included apricots, peaches, plums and apples.  
The local fair is on this week but it has met with considerable bad weather and attendance for that reason has not been as large from outside as was expected. It has rained a little most every day.

Following are approximate wholesale prices:  
California tomatoes, lugs, per case \$5.00  
Tomatoes, H.H., per case from 4.00  
Cucumbers, according to size, per doz., \$2 to 3.00  
Leaf lettuce Market price  
Radishes Market price  
Bunch carrots, per doz. .60  
Bunch beets, per doz. .60  
Went onions, per lb. .06  
Cabbage, per lb. .04  
Carrots, per lb. .03½  
Beets, per lb. .03½  
Turnips, per lb. .03½  
Potatoes, per lb., 3c to .03½  
Strawberries Market price  
Raspberries, \$3.00 to 3.50  
Loganberries Market price  
Gooseberries 2.50  
Red Currants 3.00  
Black Currants 3.00  
Cantaloupes, Standards 7.00  
Blueberries, per basket 3.00  
Cherries, Bing, per case 3.50  
Poorer varieties, per case, \$2.50 to 3.00  
Sours, per case 1.50  
Celery, per lb. 1.00  
Apricots, per case 2.75  
Plums, per case, \$3.00 to 3.50  
Apples, per case 4.00  
Pears, Bartlett, per case 6.50  
Lethbridge, July 19th.  
Strawberries and raspberries have been moving freely from Wynndel,

## Admired Hair Is Shampooed This Way

## Hair that gleams with life and color

Women admired and envied for their rich, beautiful hair know this secret. Hair specialists agree that it beautifies hair.

Olive oil for the shampoo!

It has been used since history began. For its gentle cleansing action removes all dirt and oil from scalp and hair. Dandruff is dissolved and washed away. And the bright sheen of life and color is greatly increased.

It leaves hair fluffy—never dry or brittle. It leaves hair silky and pliant as a baby's—

with the inimitable gloss so much desired.

Thousands of women now regularly treat their hair this beneficial way. They use PALMOLIVE SHAMPOO—olive oil in its most perfect form for the shampoo. Easy to use. And very economical.

You can get full-sized bottles at your dealer's. Or, by mailing coupon, you may have a 15c trial bottle free. Get some at once. Use it. See the results that follow even one shampoo.

THE PALMOLIVE COMPANY OF CANADA, Limited  
Montreal, Que. Toronto, Ont. Winnipeg, Man.

Creston and Boswell this week. They have been arriving soft in each shipment. Some have had to be jobbed. Bing and Royal Anne cherries from Okanagan points have been arriving over-ripe. However, demand has been so good that jobbers have got away with them with little loss.

Swift Current, July 19th.

Growing weather for the past week has been of the very best in this district, warm with plenty of rain; crops finest.

B. C. fruit moving freely; big demand for raspberries. Raspberries, loganberries and cherries coming in in poor condition.

Car arrivals from July 11th to July 18th: One car bananas; several L.C.L. shipments strawberries, raspberries, loganberries, black currants and red currants.

Regina, July 18th.

The wholesale market has been fairly active this past week. Arrivals have been fair in quantity with raspberries arriving on the whole in rather poor condition, most shipments showing considerable mould. A carlot arrived in excellent condition. Loganberries have arrived ripe, rather soft and showing mould; these have moved very slowly at a rather low price. Cherries on the whole have been in good condition—they have sold well at steady prices.

Car arrivals, July 12th to 18th.  
From B.C.—Strawberries, 1 car; raspberries, 1 car; mixed berries, 1 car; cherries (sweet), 2 cars.  
From Ont.—Cherries (sour), 2 cars.  
From B.C.—Mixed vegetables, 1 car.  
Imported—Mixed vegetables, 2 cars; apples, 1 car.

Winnipeg, July 19th.  
A good demand is noted for most all lines of fruit and vegetables, but there has been a shortage of good berries. Every car of raspberries and loganberries arriving here for the last week has been in very poor condition.

Car receipts since July 11th:  
From British Columbia—3 cars strawberries, 10 raspberries, 5 cherries, 3 vegetables, 2 potatoes.  
From Ontario—1 car cherries, 1 car blueberries.

Imported—2 pears, 5 peaches, 3 tomatoes, 3 cantaloupes, 6 small fruits, 1 vegetables, 3 apples and 2 onions.

WHOLESALE PRICES  
B. C. cherries, Bing, 4-bskt. cts. 4.00  
\$3.50 to 4.00  
Windsor 3.50  
Royal Anne 3.00  
Potatoes, new, per cwt. 4.00  
Ont. cherries, sour, 6 qt. bskt. .85  
Ont. tomatoes, 11 qt. bskt. 2.00  
Ont. gooseberries, 11 qt. bskt. \$1.50-1.75  
Imp. blueberries, 11 qt. bskt. 3.00  
Imp. plums, Japanese, 4 bskt. cts. 2.50  
\$2.00 to 2.50  
Imp. apples, Gravenstein, Trans-parent, box 3.50  
Imp. tomatoes, 4 bskt. crate 2.75  
Imp. onions, yellow, cwt., \$5.00 to 5.50

The weather during the past week has been generally clear and warm, although at time of writing indications are for rain.

Strawberries now occupy a minor position on the local market, the season being practically over. The price remains at \$1.50 per crate for top grade stuff.

Raspberries are coming in in restricted volume, receipts cleaning up readily from day to day. As a result the price has suffered somewhat and now ranges from \$1.50 to \$1.75 for the best, with most sales nearer the higher figure.

The cherry deal has shifted to this side of the line during the week, imports falling away to practically nothing. Last receipts from Wenatchee were on the soft side, which causes it to appear that importation lasted as long as sound stock was available.

A carlot of Okanagan cherries of several varieties rolled in during the week. This lot was rather disappointing as many of the cherries were soft and affected with brown rot.

Early apples from across the line are now much in evidence. There have also been a few small shipments from Lower Mainland points. Imports are composed of Red Astrachans, Duchessa and Red Astrachans from Washington and Gravensteins from California.

Some small importations of apples and pears have been condemned for codling moth.

Wenatchee apricots are now coming in carlots to this market. With the exception of one mixed carlot there has been very little to complain of as regards quality. The carlot referred to failed to pass inspection and was returned to the States owing to codling moth and peach worm infestation.

During the week ending July 16th, the following produce was imported:

Apples, Cal., boxes	537
Yakimines, Wash., crates	450
Apricots, Wash., boxes	1195
Plums, Cal., crates	1730
Peaches, Cal., boxes	1786
Cherries, Wash., boxes	368
Squash, Cal., crates	7
Cherry, crates	2
Garlic, sacks	365
Onions, Cal., sacks	35
Cabbages, Cal., crates	72
Parsnips, sacks	2
Green Beans, sacks	2

Loganberry Wine Recipe

There is much need for a campaign of education in favour of consuming pure fruit juices, instead of the synthetic chemical preparations now being consumed to the detriment of the pub-

## Carrying Milk To The Country

Mrs. L. H. R. and her two children, together with her father and mother, have a cottage down near the border. Fresh milk is brought to their door every day by a farmer boy, yet Mrs. R. says she has a case of Pacific Milk to use for cooking and for her husband's cocoa at night. She says it seems impossible for her to get a real good cake with anything but Pacific.

We are glad to hear such experiences. It is encouraging.

lic health. The following is a recipe for loganberry wine:  
Pulp one gallon of berries thoroughly, add three gallons of boiling water to one gallon of pulp, let stand three days, then strain well; add 5 lbs. of yellow sugar; let stand until fermentation finishes in temperature of about 60 degrees. Run off into cask and bottle after fermentation ceases.

The production of the Coalmont Collieries is now the greatest in the Nicola-Princeton field, according to figures. In that month Coalmont produced 9,600, Merritt 6,400, and Princeton 800 tons of coal.

## Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and grouchoes. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, made a good living and brought up their families. It meant hard work, but today they are independent.

Money in Mixed Farming

In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 99c as against the Fort William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted. The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs

The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying

for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

## We Must Cut Production Costs

Canada is meeting with the keenest competition in the marketing of her products. To hold her own and regain her place on the world's market, she must reduce cost of production.

The only way to do this is to increase production per acre, per cow or per other unit.

But improved quality, also, is essential to meet market demands.

The quantity and the quality of the products and the cost of production in competitive countries is beyond our control.

Prices of agricultural products are regulated by world supply and demand.

Hence, decreasing production will not help the Canadian farmer.

Canada exports seed potatoes, but imports other seeds. She has the opportunity to grow seeds for herself and for export.

The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

patronage of old customers and al-  
so welcome new ones. Large stock  
of high-class Shoes at reasonable  
prices. P.O. Box 56

The cordage factory established at  
New Westminster in 1921 is proving a  
great commercial success. It now em-  
ploys sixty-six hands and is kept run-  
ning eighteen hours out of the twenty-  
four, also it has sufficient advance or-  
ders to keep it operating at the same  
rate for the next three months, even  
if no new orders come in during that  
period.

That the using of oil wrap pays is  
well illustrated by the returns recent-  
ly published by the Northwestern Fruit  
Exchange, a company operating at  
Wenatchee, Wash. It shows that nine-  
teen cars of oil-wrapped apples were  
marketed by that firm in New York,  
and fetched \$61,710, from which sum  
\$12,447 was deducted for freight and  
other charges. This netted the price  
of \$3.44 per box f.o.b. Wenatchee.

THE KELOWNA COURIER  
AND  
Okanagan Orchardist.

Owned and Edited by  
G. C. ROSE.

Circulation, 1,200

SUBSCRIPTION RATES

(Strictly in Advance)  
To any address in the British Empire  
\$2.50 per year. To the United  
States and other foreign countries,  
\$3.00 per year.

The COURIER does not necessarily  
endorse the sentiments of any  
contributed article.

To ensure acceptance, all manuscript  
should be legibly written on one  
side of the paper only. Typewritten  
copy is preferred.  
Letters to the editor will not be ac-  
cepted for publication over a "nom-  
de plume"; the writer's correct name  
must be appended.

Contributed matter received after  
Wednesday noon will not be pub-  
lished until the following week.

ADVERTISING RATES

Classified Advertisements—Such as  
For Sale, Lost, Found, Wanted,  
etc., under heading "Want Ads,"  
First insertion, 15 cents per line;  
each additional insertion, without  
change of matter, 10 cents per line.  
Minimum charge per week, 30  
cents. Count five words to a line.  
Each initial and group of not more  
than five figures counts as a word.  
Filing fee for box numbers, 50  
The Courier, if desired, 10 cents  
extra.

Transient and Contract Advertisements—Rates quoted on application  
Legal and Municipal Advertising—  
First insertion, 15 cents per line.  
each subsequent insertion, 10 cents  
per line.

Contract advertisers will please note  
that to insure insertion in the cur-  
rent issue, all changes of  
advertisements must reach this  
office by Monday night. This rule  
is in the mutual interests of patrons  
and publisher, to avoid a congestion  
on Wednesday and Thursday and  
consequent night work, and to  
facilitate publication of The Courier  
so as to reach country customers  
before Saturday.

THURSDAY, JULY 26th, 1923

## Orchard Run

WAIT FOR AND BUY  
B. C. APRICOTS

Unfortunately, this is not a slogan,  
but it is what should have appeared on  
the market page of the "Vancouver  
Province" on July 19th, instead of the  
headlines to an article intimating that  
the Washington apricot season is  
"now" at its height and conveying  
gratuitous advice from Water Street  
dealers to consumers to provide at  
once for their canning requirements.  
Absolutely no reference was made to  
the fact that apricots are grown in  
large quantities in the Okanagan Val-  
ley, and the only inference to be drawn  
from the wording of the article was  
that the supply of apricots would soon  
be at an end.

A storm of protest from the Okana-  
gan has followed upon this revelation  
either of an astounding measure of ig-  
norance of provincial resources, or a  
lack of patriotism, on the part of what  
is considered to be British Columbia's  
leading daily paper. We publish one  
letter elsewhere in this issue, others  
have gone direct to the "Province," and  
the ultimate result of the publicity  
given to the matter should be that the  
housewives of Vancouver will learn  
that they need not look to the United  
States for their supplies of apricots for  
preserving.

There are those at the Coast who  
have a wider knowledge of British  
Columbia than the market editor of the  
"Province," and the article did not  
escape the observant eye of Mr. Parker  
Williams, erstwhile M.L.A. for New-  
castle, Vancouver Island, and now a  
member of the Workmen's Compensation  
Board. He immediately wrote to  
Mayor Sutherland enquiring whether  
the statement that "the apricot season  
is now at its height" is true of the B.  
C. apricot season, and if not so, at  
about what date would the B. C. season  
be at its maximum. He also desired  
to be placed in touch with some person  
who would supply information along  
these lines from time to time as the  
season goes on. He explained that his  
only interest in the matter was to dis-  
cover, in a small way, how deep the  
"Buy in B. C." propaganda reaches.

This latest instance has deepened  
the impression which has gained  
strength throughout the Interior dur-  
ing the past year that the slogan of  
Coast origin, "Buy B. C. Products,"  
really means "Buy Vancouver Pro-  
ducts" and is not reciprocal. The man-  
ufacturers, wholesalers and business  
men generally are anxious to inculcate  
loyalty upon the part of the vast Inter-  
ior to Vancouver-manufactured articles,  
but the support they give in return by  
the purchase of B. C.-grown fruit and  
produce is certainly far from whole-  
hearted. The comparative failure of  
the McIntosh Red selling campaign in  
Vancouver last fall is still fresh in the  
minds of fruit growers, and the list of  
importations of fruit from the United  
States all through the season, as given  
in the weekly market report published  
in this paper, shows an apparent par-  
tiality for American produce instead

of a loyal endeavour to give our own  
provincial fruit industry the greatest  
possible measure of support and en-  
couragement. So long as the Van-  
couver outlook is bounded by such a  
narrow horizon, it will be only in ac-  
cordance with human nature if the  
people of the Interior do not return  
an enthusiastic response to the invita-  
tion to buy Vancouver-made goods.

## GLENMORE

Mr. and Mrs. W. M. Geary, with  
Mr. Geary, Junior, arrived by car  
from Calgary on Monday and are re-  
siding on the ranch which formerly  
belonged to Mr. Wm. Wallace.

Mrs. George Hume, who had been  
visiting her mother at Naramata, re-  
turned home on Tuesday.

A general exodus of the devotees  
of Isaac Walton took place for the  
week-end. Messrs. Stanley, James,  
Cushing, Knowles, Lovell, Paige and  
Sorel journeyed to Mabel Lake, re-  
turning in the small hours of Monday  
morning, while Messrs. Paul, Martin,  
P. Rankin and J. Ward spent a very  
enjoyable time at McCulloch, return-  
ing on Sunday evening.

The Glenmore ball team journeyed  
to Kelowna on Friday last to play  
the second game of the play-off with  
the Elks. The Valley boys returned  
home with a victory of 9-4. Both De-  
Hart and LeQueune pitched good ball,  
but a few errors were partly respon-  
sible for the Glenmore victory. Score:  
Glenmore ..... 0 0 2 0 2 5-9  
Elks ..... 0 0 2 0 2 0-4

With the great increase of weeds,  
it looks as though we shall need to  
follow the example of Vernon. They  
are asking the Chief of Police to en-  
force the noxious weeds by-law. This-  
ties, tumble weed, sweet clover are  
ever increasing, and each south wind  
that blows will carry more north.  
Tumble weed is fairly easy to handle  
now in its green stage, also sweet  
clover. Sow thistle can now be no-  
ticed on our roads and, according to  
the Horticultural Department, is a  
weed to be guarded against, for, like  
the dandelion, it increases rapidly.

The Trustees of the Irrigation Dis-  
trict wish to warn any owner who  
dams the ditch that he will be res-  
ponsible if any damage is caused by  
the ditch overflowing. They are plan-  
ning to empty the main dam by Au-  
gust 15th, so as to allow the recon-  
struction to proceed. There is a lot of  
water now, so every one will be well  
advised to water up good from now  
until August 15th. After that date,  
there will be a small irrigation, as the  
south lake dam and the service reser-  
voir remain to be drawn from.

On Tuesday this week the Elks  
played Glenmore for the champion-  
ship and were victorious by a score of  
16-7. In the second game the balloon  
went up, when the Elks pushed fif-  
teen men across the plate. They could  
not help but get the runs when they  
were handed to them on a platter. In  
the third inning our boys tightened  
up, retiring their opponents scoreless  
for the rest of the game. During this  
time Glenmore gathered seven runs.  
The Elks tried two pitchers. DeHart,  
pitching the first three innings, was  
relieved by McClymont for the re-  
mainder of the game. The features of  
the evening were the two three-base  
hits by DeHart and running catches  
by Kerr and Whitman in the field.

Glenmore's loss of this game gave  
last year's champions the cup for  
another year. Score:

Elks ..... 1 15 0 0 0-16  
Glenmore ..... 0 0 1 4 2-7  
Umpires: Sparks, behind the bat, and  
Bourke on bases.

There was a good turnout of fans  
for this final game, rooters witnessing  
the play from Rutland as well as from  
Kelowna. It is to be regretted that,  
after the fine form shown during the  
season, our boys should have gone  
down to defeat in this final game.

Mr. Wm. Wallace left on Wednes-  
day morning's boat for Calgary, where  
he will now reside.

The Glenmore Ladies Club met at  
the home of Mrs. A. Loudoun on  
Tuesday afternoon, July 24th. In spite  
of the heat and the strenuous days  
many are putting in with canning and  
thinning, there was a good attendance  
of members and visitors.

The next meeting, on August 14th,  
will be held at Manhattan Beach. Mrs.  
J. B. Knowles has kindly placed her  
camp at the disposal of the Club for  
that afternoon, and it is hoped that  
all our members will be able to take  
advantage of her hospitality and be  
present. It would be appreciated if  
those who have a vacant seat in a  
car will offer it to any member who  
otherwise would be unable to join us.

As The Temperature Rises

Several good buys in City and Orchard Property. Also  
Houses to Rent. See us before buying. 48-2c

## PROVINCIAL ITEMS

The Provincial Government is about  
to construct a new office, building at  
Oliver.

The annals of medical history do  
not furnish many records of death  
being caused by the sting of a wasp,  
but last week in Victoria the medical  
evidence given at an inquest proved  
that the death of Mr. S. T. Vickers,  
of that city, was caused by his having  
been stung by a wasp in the mem-  
brane at the base of the tongue,  
which caused rapid swelling of the  
tissue and closed the air passages of  
the throat.

It is understood that the Provincial  
Government will not commence the  
erection of the proposed new provincial  
building at Penticton this year, as the  
site for it has not yet been decided on.

Construction has been commenced  
at Oliver on the new packing house of  
the Oliver Co-operative Growers' Ex-  
change.

The Vancouver Exhibition authori-  
ties have established an auto camp at  
Hastings Park with every convenience  
for the automobile camper, such as hot  
and cold water, telephone, electric  
light, kitchen, lunch room, automobile  
washing stand, etc. The camping  
ground is complete in every detail, and  
will be found of great convenience to  
those who decide on going to the fair  
in their own cars.

Canada supplies the United King-  
dom with only about ten per cent of  
her timber requirements. The Mother  
Country draws more than 85 per cent  
of her forest needs from outside the  
Empire. This is due chiefly to the  
great difference in freight rates as be-  
tween Canada and the Scandinavian  
countries. On the other hand, five-  
sixths of all lumber made in Canada  
is sold to United States consumers,  
and the exports are growing steadily.

The forests of Canada occupy about  
80 per cent of the habitable area.

## Want Advs.

First insertion: 15 cents per line; each additional insertion, 10 cents per line. Minimum charge per week, 30 cents.

In estimating the cost of an advertisement, subject to the minimum charge as stated above, each initial, abbreviation or group of figures not exceeding five counts as one word, and five words count as one line. If so desired, advertisers may have replies addressed to a box number, care of The Courier, and forwarded to their private address, or delivered on call at office. For this service, add 10 cents to cover postage or filling.

## Local and Personal

Mr. and Mrs. D. Baker left for Edmonton today.

Mr. L. A. Fowler, of Calgary, is a guest at the Lakeview.

Mr. M. McLennan Jr. of Calgary is staying at the Lakeview.

Mr. W. T. Blair, of Penticton, was in town on Thursday, on a business trip.

Mrs. R. W. Thomas returned yesterday from a holiday spent in Vancouver.

Mrs. D. Campbell and children, of Vancouver, were visitors to the city on Monday.

The old warehouse of the Kelowna Growers' Exchange has been leased by Mr. W. W. Loane.

Mr. G. G. Rees, of Nelson, spent Monday in the city, travelling on to Vernon next day.

Mr. W. H. Robertson, Provincial Horticulturist, spent the early part of this week in Kelowna.

The Kelowna Growers' Exchange is making express shipments of cucumbers to Prairie points.

Mrs. B. Stewart, of Summerland, and Mrs. Van Tassel, of Vancouver, were guests at the Lakeview last Monday.

All the packing houses have commenced to ship semi-rifle field tomatoes, but in small quantities up to the present.

Mr. and Mrs. T. Morris and Dr. and Mrs. L. Jones, of Revelstoke, who were staying in town, returned home on Tuesday.

Mr. Fred, Fowler, of Wenatchee, a former resident of Kelowna, who was camping in the City Park, returned home on Friday.

Last Sunday a very large number of Kelownians crossed over by the ferry to the Westbank beach and enjoyed the bathing there.

Mr. and Mrs. C. Nichols and sons, of Greenwood, spent part of Monday here, on their way home from a trip by car to Vernon.

Mr. and Mrs. Elmer Still and son, of Orangeville, Ont., spent Monday in the city on their way by car to points in the North Okanagan.

Mr. and Mrs. G. A. McKay and Mrs. D. Smith returned to town on Friday from a very enjoyable stay in camp at the Joe Rich canyon.

Mr. J. C. Taylor, Mr. J. H. Broad, Miss Blackley, Mr. and Mrs. J. O'Connor, and Miss Margaret Taylor are camping at the McCulloch lakes.

Mrs. J. H. Farmer, of Blairmore, Alta., who has been summering at Naramata, spent yesterday in town and played golf at the Glenmore links.

Mr. A. C. Whitney, C.P.R. Agent, Lytton, and Mrs. Whitney, passed through town on Thursday last on their way to United States points by car.

Mr. and Mrs. W. Geary and Mr. R. H. Geary, of Calgary, motored to the city on Monday. They came by way of the Banff-Windermere Highway and southern Kootenay.

It is reported in tomato-shipping circles that the Ontario tomato crop has suffered a forty per cent loss this season, owing to poor growing weather soon after planting.

Mr. and Mrs. C. S. Hodge and Miss Sylvia Hodge, of Seattle, spent Monday in town on their return from a trip by car to Sugar lake, where they report having had a splendid time.

Mrs. J. H. Curtis and Mr. Secart Curtis, of Revelstoke, and Miss Mina M. Mahon, of Edson, Alta., who were staying at the Lakeview, returned north on Monday on their way home.

The creche which has been established on St. Paul Street, opposite the telephone office, is open for inspection any time by parents who wish to leave their children there. Mrs. E. Roberts has been placed in charge.

Miss I. Hewson left on Saturday for England. She sails on the s.s. "Canada" of the White Star Line, for which Mr. F. R. E. DeHart is local agent, from Montreal for Liverpool next Saturday.

In a great many fields in this district the early potatoes are a poor crop, mostly resulting from indifferent seed having been planted. The expected tonnage from this district will be considerably cut down in consequence.

Mrs. F. P. Harnsworth, of Riverside, Wash., Mrs. King M. Geve, of Omak, Wash., and Messrs. P. L. Idleman and H. F. Henderson, of Seattle, who were on a tour of the Okanagan, were entertained at the Aquatic Club last Sunday.

Four Scouts swam across Okanagan lake last Sunday, taking a canoe over to the Westbank shore and swimming to the Athletic Club. They were Second Gordon Haug and John Williams and Scouts Lloyd Cunningham and Donald Loane.

Mr. and Mrs. W. Hurst, of Vancouver, are camping in the City Park.

Mr. and Mrs. J. F. Getsey and family and Mr. L. E. Brummer, of Spokane, spent last Tuesday in the city, on their way home by car from a trip to northern Okanagan points.

The secretary of the Tomato Growers' Association reports that the affairs of that body are in a flourishing condition, but that, owing to competition from independent shippers, the price of tomatoes at the Coast has been cut from \$2.50 to \$2.00.

Mrs. McNeill and son, of Ellensburg, Wash., passed through town on Friday on their way by car to the Cariboo district. They were both astonished and pleased with the camping sites in this vicinity and intend making a stay here on their return south.

Mrs. F. T. Whitehead and the Misses Phyllis, Louisa and Ethel Whitehead, Miss Rowley, Miss Amy Rowley, and Messrs Russell Leckie and J. Porter returned to town on Friday from a very enjoyable stay at Deep Creek, where they spent ten days fishing and bathing.

Twenty magnificent bunches of Black Hamburg grapes were sent on Tuesday from the Richter Street Greenhouses to Vancouver, where they will help to advertise Kelowna and the Okanagan generally at the banquet to be given to President Harding, of the United States.

All the sloughs in the neighbourhood of the City Park have been treated to a dose of coal oil owing to the energetic efforts of Mr. W. M. Crawford, who received the sanction of the city authorities to carry out this method of ridding the tourist camp site of the mosquito pest.

Mr. and Mrs. John P. O'Connor and two sons, of Calgary, are spending a holiday with Mrs. O'Connor's parents, Mr. and Mrs. P. Blackley, of Cadder Avenue, and Mr. and Mrs. John H. Blackley, of Calgary, who motored to Kelowna last week, returned home by car on Tuesday.

Miss Muriel P. Fallows, of Vancouver has been engaged by the Kelowna School Board to fill the position recently held by Miss E. Archibald, who has sent in her resignation. Miss Fallows taught for a number of years in the public schools at Mount Pleasant and Fairview, and has been very highly recommended to the Board.

Constable G. Chaplin left on Tuesday on a fortnight's vacation, which he will spend in Vancouver and Victoria. He is fully recovered from the effects of the shock he received during the electric storm on the night of the 17th, but needs a rest and change. Mr. E. Chamberlain will be acting constable during his absence from the city.

Judge and Mrs. E. R. Henderson and Miss Margaret Sharp, of Bonners Ferry, Idaho, who spent yesterday in town on their way to Tatla lake in Northern B. C. by car, stated that the camp site here was by far the best that they had yet struck on their travels, and wondered that it had not been more advertised. They intend to camp here on their return.

One of the annual events, which is always looked forward to by all lovers of flowers, will take place on Thursday, August 2nd, when the Amateur Sweet Pea Association will hold its show at the Parish Hall, on Sutherland Avenue. There is expected to be unusually keen competition this year, as a number of new varieties have been grown.

The first car of mixed vegetables was shipped from Kelowna to Calgary last Saturday. It was made up of potatoes, cabbage, onions, squash, beets and carrots. This shipment is one week earlier than the first of its kind last season. The squash, which was grown at Ellison, is a very early product, fully one month earlier than the average year.

Mr. G. A. Carter, Chief Provincial Constable for the Okanagan District, was among those who came down from Vernon yesterday to attend the funeral of the late Mr. Stephen Hanlon.

Mr. and Mrs. A. Young and Miss Dorothy Young, of Armstrong, passed through the city yesterday on their return from a prolonged motor tour across the line.

Among the tourists camping in the City Park are Mr. and Mrs. R. W. Bozman and family, of Crawfordville, Iowa, who have been making an extensive tour of the Interior; Mr. and Mrs. W. M. Sewell and family, of Wenatchee; Mrs. B. Thompson, Miss A. Selle, Mrs. Halsoe and Mr. S. D. Henders, of Twigg, Wash., and Mr. and Mrs. E. W. Wing, of Lewiston, Idaho.

Dr. R. Mathison returned on Friday from an extended visit to Toronto, Hamilton and other eastern cities. He states that both at Toronto and Hamilton he was informed that there was no Canadian National telegraph office here, and that it was only by wiring to the headquarters management of the system that he was able to get the local telegraph officials of those cities into believing that Kelowna is on the map.

According to a local fruit shipper, of many years experience, the early crop of this season all through the Okanagan have been below normal from a shipping point of view owing to the rains, and the later cherries have also been slightly below normal. The best of these now arriving in Kelowna from the districts to the south He states further that advices received from the prairies bear out these statements.

The management of the Dominion cannery do not expect to commence canning operations till about the 15th of next month. Though it is possible that a start may be made about the 10th, if certain fields of tomatoes near town ripen by then. There has been a gratifying number of applications for work from local women, but it is possible that it may be necessary to secure help from the Coast as well, during the busiest portion of the season.

The marriage of Captain L. Ede, the officer in charge of the local corps of the Salvation Army, is taking place at Vancouver on August 9th, the bride-elect being Captain A. Casler, of Melville, Sask. Captain Ede is leaving on Monday for the Coast, and after spending their honeymoon at Victoria and the Kootenays the Captain and his bride will be returning to this city to resume command of the Army here. Lieutenant Hogarth will be in charge during the absence of Captain Ede.

The young adventurers, Harry Mantle and Hugh McKenzie, returned on Friday from their trip to the neighbouring United States. Despite the age of their somewhat venerable Ford, it proved a reliable means of conveyance, and in ten days' time they managed to visit Vancouver, Seattle, Portland and Spokane. As the lighting system of the car was not in working order, they had to do all their travelling in daylight, and it is evident that they did not tarry by the way.

A party from Colville, Sask., consisting of Messrs. Harry Mitten, general merchant, George Close, rancher, Reeve Donald Laing and Jack Brent, secretary-treasurer of the municipality there, motored through Kelowna last week on their way to Vancouver. Mr. Brent renewed acquaintance with Mr. and Mrs. Geo. S. McKenzie, Mr. and Mrs. Frank S. Morris and Mrs. Geo. A. Meikle, who are old Watford, Ont., friends, and Mr. Close was driven around the district by Mr. Geo. Rowcliffe, an old Thedford, Ont., friend.

Two seven-passenger cars crossed on the ferry last Friday which hailed from Wenatchee. The tourists, Mr. and Mrs. W. A. Woodward and family and Mr. and Mrs. C. E. Denison and family, stated that owing to the bad accounts given them of the camping facilities they were reluctant to stay here, but on being hospitably entertained at the Aquatic Club they changed their minds on the subject, and before they returned home on Saturday evening they expressed themselves as delighted with their short visit to the Orchard City.

### PROPERLY CURED HAY FOR LIVESTOCK (Experimental Farms Note)

Success in the feeding of live stock depends not only on the ability of the farmer to get the most out of his acres, but also upon the quality of the produce of his fields. Particularly does this refer to hay crops of all kinds. A desirable feed must be digestible, palatable and productive. All these factors insofar as hay crops are concerned are largely controlled in the curing of the crop.

#### The Effect Of Cutting At The Right Stage

In a general way the practice of allowing excess maturity before cutting is too prevalent. It might be almost permissible to advise paradoxically the cutting of all hay crops about one week before they should be cut—or, to amend slightly, before one thought they should be cut. Very little hay is cut too green. One is liable to see a lot of the fact that most hay crops continue to mature for some little time after cutting, such as with the clovers and particularly with oat hay, peas and oats, or peas, oats and vetches. Early cutting of hay crops, other things being equal, tends to produce maximum palatability and therefore maximum consumption later on. The ruminant must get its digestion. It is easier and more economical to obtain this necessary mechanical filling out, in part, at least, with a palatable, easily digestible, feed. For the early cut hay crop is usually more readily digestible, because of the lesser development of crude fibre and the more readily assimilable form of the nitrogenous elements. Thus such hay crops, besides being highly palatable, tend toward the saving of higher priced concentrates in the total ration. Oats or other cereal crops, cut for hay, lose a great deal of their palatability and productivity where cut much after the early milk stage. Such lacks must be made up from more expensive sources to obtain the expected milk yields.

The Effect of Proper Curing on the productive powers of hay crops, imperfect or superficial drying and curing in the field renders heating in the mow certain and the development of moulds—"fire-fang". Palatability is decreased and palatability is, if anything, the greatest of the three essentials in a good feed. The highest quality of legume hay from the standpoint of productivity cannot be obtained unless some provision is made for the soft green-cut sappy crop to be allowed to go through its preliminary "sweating" in a small, properly built pile in the field, where the heating process may be controlled and checked when the coil is opened up. Failing this, as when the more rapid setting of the mow, where the crop heats in the mow, where the process cannot be controlled. Considering the question from the standpoint of quality feed for the milking cow, coiling legume hay crops is a paying investment even were it possible to guarantee perfect hay weather. To the alfalfa grower harvesting his first crop of the season under the frequently unsettled weather conditions of our Canadian June, proper coiling is a necessity. It is doubtful whether coil caps and covers are not also a necessity to the man who sets a premium on quality hay. The increased productive qualities of a properly coiled and covered crop of alfalfa in one or two wet years might pay for the cost of equipment and labour connected therewith. One cannot always follow the dictates of judgment. Nevertheless, during the rush of haying, this fact sometimes gets founded: that the crop harvested is not merely a filler, something to keep animals alive in the winter, something to be got from off the fields and under cover as promptly as possible, but a feed, the productivity of which may be made or marred in the curing.

G. B. ROTHWELL, Dominion Animal Husbandman.

### WINFIELD

(WOODS LAKE)

Mrs. Orc returned home on Saturday from Seattle, where she had been visiting her mother, who has recently undergone an operation. We are glad to know she is on the road to recovery.

Mr. and Mrs. Borland, of Vancouver, paid a surprise visit to their cousin, Mrs. Lawley, on their way to Okanagan Centre, where they are the guests of Mr. and Mrs. Purvis.

We are pleased to hear that Miss Kathleen Blakey is recovering from her recent riding accident.

Several of the Winfield residents attended the dance held at Okanagan Centre on Tuesday evening, and a very enjoyable time was spent.

On Thursday, the 19th inst., the regular meeting of the Winfield Farmers' Institute was held in the Community Hall. Owing to the very rainy

## SOW THISTLE IS SPREADING RAPIDLY HERE

Farmers Are Warned To Eradicate  
What Is Considered The Worst Of  
Canadian Weed Pests

(By B. Hoy, Assistant District Horticulturist)

The Perennial Sow Thistle (*Sonchus Arvensis*) is rapidly gaining a foothold in the Kelowna district. Because of its exceptional ability to propagate both by rootstock and seeds, it is considered the worst of Canadian weeds. It is in bloom now and some of the plants are seeding. Every farmer and fruit grower should acquaint himself with this weed and take the necessary steps for its control.

The Bi-Monthly Bulletin of the Western Washington Experiment Station for July gives a description of the plant and the best methods of control, as subjoined.

The plants have a dense mat of smooth leaves at the base. The flowering stems have few leaves and are usually four to six feet, growing erect and bearing numerous yellow blossoms, resembling a dandelion in shape. The whole plant contains a milky juice, which exudes if a leaf or stem is broken. The underground rootstocks are fleshy and tender. A piece of this rootstock will produce a new shoot with remarkable rapidity and from considerable depth in the soil. The seed produced by the sow thistle is quite viable, and easily spread by the wind.

Control and eradication of such perennial rootstock weeds have been described involves much time and persistent and costly money. The easiest and most lasting effort is that which eliminates the noxious weed from the farm when it first arrives. Small areas may be given vigorous attention, and the weed will have no chance of spreading.

There are several methods of eradicating small patches of weeds. One of the most effective is smothering the plants with tar paper. The paper should be left in place from May until September, in the case of quack grass, according to Farmer's Bulletin 1307, which describes the method as follows: "The tar paper should be of a heavy grade, and laid so as to overlap about three inches, and the laps should be weighted with earth to make a tight joint and prevent the paper from blowing away."

Hand digging is another very effective method of eradicating small areas of these weeds. It should be done carefully, however, so that all pieces of rootstock will be removed.

Eradication in extensively infested fields is an extremely doubtful accomplishment, but there are a few cropping practices which will tend to control the weeds. Seeding a smother crop of wheat and vetch early in the fall to be cut in late spring for silage or green feed followed by fallow during July and August or a late sown cultivated crop, is one method. Another excellent control measure is a short rotation of crops on the infested land such as fall grain seeded down to clover and grass one year, and a cultivated crop one year. One should always have in mind the control of the weed. The utilization of the crop becomes a secondary consideration.

For working badly infested land there is no better type of harrow than the disc, especially in the case of quack grass. The disc harrow when sharp, is, in fact, the only harrow which will make much of an impression on an infestation of quack grass. Harrows which tear out only part of the rootstocks, and drag many away to infest other portions of the field, should be avoided.

In berry fields and orchards weed control will have to depend upon the thoroughness and frequency of cultivation. A rapid and abundant weed growth has always been our lot in Western Washington, contributing greatly to our cultivation costs. So far this has not been so excessive as to prohibit crop production. However, when one notices the present inroads being made by sow thistles, Canadian thistles and quack grass, a real menace presents itself, threatening to render much land worthless for farming.

## LITTLE RISK IN BUYING CANNED GOODS

Grades of Canned Fruits and Vegetables are now Standardized

Housekeepers run practically no risk of getting a poor quality of canned fruits or vegetables if they will be careful to order by quality grade. All canned goods put up in the larger factories must conform to legal standards, and these are shown on the label of the can. The system of standardizing canned fruits and vegetables is explained in the May-June number of the Agricultural Gazette by G. S. McGilvray, the Chief Canning Inspector of the Department of Agriculture at Ottawa.

The four legal standards of quality for fruits and vegetables are "Fancy Quality," "Choice Quality," "Standard Quality," and "Second Quality." In addition to general standards for vegetables, specific grades have been established for canned peas. These are as follows: Size No. 1, Size No. 2, Size No. 3, and Size No. 4. The size is determined by the opening in the sieve through which the green peas will pass.

Canned fruits are graded for quality and syrup. In grading for syrup, the terms "Heavy Syrup," "Light Syrup," and "Without Syrup" are employed. If the packer so desires, he may substitute the words "Packed in Syrup" for "Without Syrup," (stating the percentage of sugar in the syrup).

The terms denoting quality and grade must appear upon the main portion of the label in plain type of a size not less than 1/8 of an inch in height. Thus, in the case of peas, the label must indicate the quality and size of the peas contained in the can, thus—"Fancy Quality, Size No. 1." In the case of fruit, it must indicate the quality of the article as well as the consistency of the syrup so far as su-

## EGG GRADING REGULATIONS NOW IN FORCE

New Rules Apply To Eggs For Domestic Consumption As Well As Export

The "Regulations Respecting the Grading and Marketing of Eggs," effective July 7th, are a further evidence of the unique position Canada has taken in poultry work. The new regulations extend the standardization of eggs to those intended for domestic consumption. No other country has as yet attempted to take such a step.

The original regulations covered export, import and inter-provincial shipments, but it is now provided that every case or container of eggs shipped or delivered either on consignment or bought for resale will have to be marked on both ends with the name and the class of egg contained therein. Provision is made that any producer or other person dealing in eggs may designate his right to handle and grade to the first wholesaler or retailer to whom the eggs are shipped or delivered, in which case cases or containers must be marked with the words "Ungraded Eggs for Shipment Only." This regulation will not apply to shipments or deliveries direct from producer to consumer. An allowance is made for six and one-half per cent below grade, stated, apart from loss in grading. In the event of a complaint as to grade the must be made to the vendor within twenty-four hours of the receipt of the eggs, after which time the liability as to the eggs being below grade will rest upon the person in whose possession the eggs are found.

Consumers will be particularly interested in the regulations which read as follows: "Every case or container of eggs that is exposed, displayed or offered for sale by any person selling or delivering eggs direct to consumers in a public place or manner shall be marked, labelled, tagged or accompanied in conspicuous letters with the name of the class and grade of eggs contained therein." "No person shall ship eggs or cause eggs to be shipped or delivered or displayed for sale in cases or containers which are marked or labelled or tagged with the name of any class or grade specified in these regulations, unless the quality and weight of the eggs contained therein is equal to or better than such class and grade," and "No person shall buy for sale or resale or expose for sale or sell eggs which are marked for human food." In other words, eggs must be candled and graded according to the Canadian Standards before being offered for sale.

A regulation which is of special importance to producers is that which provides for those receiving eggs on consignment or buying eggs for resale making returns for these eggs on the basis of the Canadian Standard grades. This particular regulation does not apply where producers market their eggs in more than fifteen dozen lots in any one day.

The egg regulations, which are made under the provisions of the Live Stock and Live Stock Products Act, now form what is perhaps the most complete and comprehensive legislation covering any particular food product. Eggs moving for export, in inter-provincial shipment, imports, and eggs for domestic consumption are now covered by these regulations. The standards for eggs upon which all this work is based cover both the weight of the egg and the interior quality. The application of these standards to export shipments has given Canadian eggs an enviable reputation on the British market, and the extension of the regulations to eggs moving into domestic consumption in Canada will be welcomed by all handlers of eggs from producer to consumer.

The classes are known as "Fresh," "Storage," "Preserved," "Fresh" may include all grades, "Storage" and "Preserved" all grades except "Specials." The grade names are "Specials," "Extras," "Fullet Extras," "Firsts" and "Seconds."

Copies of the new regulations can be seen at the office of the Kelowna branch of the Okanagan Poultrymen's Co-operative Association.

## AUGUST ISSUE OF "ROD AND GUN"

There is an abundance of interesting material for the sportsman in the August issue of "Rod and Gun in Canada," and from cover to cover it is stocked with articles written from first hand experience, while the various departments are brim-full of interesting suggestions, and experiences. Raymond Thomson is represented by a good story on the Beaver, getting some unusual insights into its life. "Walking Up and Drifting Down" is an interesting account of a novel canoe trip by Dale has contributed a good story on the wild goose hunters of Cape Island. The Sixth Close Call of Martin Hunter contains another narrow escape from death, while an interesting article appears by G. W. Visser on making summer vacation pictures attractive. Robert Page Lincoln, G. S. Landis, F. Williams, and J. W. Motley, F. V. Williams, and J. W. Visser, the regular contributors, have supplied departments covering every phase of the sportsman's interest, and there are numerous other articles and stories in this well illustrated number which make the issue one of particular interest. "Rod and Gun in Canada" is published monthly by W. J. Taylor, Limited, at

gar content is concerned, thus—"Fancy Quality—Heavy Syrup."

The declarations of net weight on certain sizes of containers is not required, as these sizes have been standardized. These sizes are known as Size 1's, 1 1/2's, 2's, 2 1/2's, 3's, and 10's. The minimum net weight of both liquid and solids as packed is defined for each of these sizes. Sizes not standardized must show on the label the net weight and the drained weight.

## RUTLAND

Rev. Frank Stanton returned on Saturday morning from the Coast. While there Mr. Stanton attended a "Gillwell" training camp for Scouts and he returns full of enthusiasm and new ideas in regard to Scouting which the local Scouts will doubtless get the benefit of at their camp.

Miss Lucretia Oakes left last week for Vancouver, where she will take a course of training as a nurse in the General Hospital there.

Miss Lillian Sproule is visiting her mother, Mrs. R. J. Sproule.

Mr. D. Sexsmith left last week for the Coast on mining business.

Mr. and Mrs. Esdale and family, who have been visiting Mr. and Mrs. T. S. Garthorne, left last week by auto for their home in Seattle.

Mrs. W. Murphy and family, of Vancouver, are visiting Mr. and Mrs. A. E. Mitchell.

The weather man was not kind to the Women's Institute on Thursday last on the occasion of their annual picnic. The day started fine and the party of picnickers reached their destination, Okanagan Mission, quite safely. Mr. Percy Smith providing transportation in his large truck. About supper time, however, a big storm came up and before the party reached home rain fell in torrents and all the ladies were drenched.

The first big dance held in the Community Hall was staged on Thursday evening last and was a decided success in every way. The building was especially numerous. Refreshments were up to the usual Rutland standard of excellence and the floor being surprisingly good for a new one, all present spent a thoroughly enjoyable time. Winstone's Orchestra provided the music and up-to-date music. (In this connection we would like to mention that Mr. Quigley's services with the trombone were given gratis.) The net proceeds of this enjoyable affair are approximately \$97.00.

The 1st Rutland Troop of Boy Scouts left for their third annual camp on Tuesday, their destination being Wood's Lake, the same site as last year. Transportation was very kindly supplied by Mr. A. W. Dalgleish with his truck. Two Scouts, Scoutmaster Stanton, and Assistant Scoutmaster Gray and fifteen Scouts went under canvas. They will be joined later by two or three more Scouts. The site chosen is an excellent one for bathing and other camping activities and the boys anticipate a very pleasant week in the out-of-doors.

There will be no service on Sunday evening at the Methodist Church, in the absence of the pastor, Rev. F. Stanton.

Visitors' Day at the Scout Camp will be Tuesday, July 31st. The Scouts will break camp the same evening and the Cubs will take over from them.

The local junior baseball team added another win to their list of victories on Friday evening last when they defeated a team from East Kelowna by a score of 8 to 3. Only four innings were played. The locals five runs in their first inning, scored five runs in their first inning. The K. L. O. boys showed lack of coaching, but with practice and coaching have the makings of a good team. K. Dalgleish pitched a good game for the Rutland juniors striking out nine of his opponents, three in the last inning. The ball only passed from pitcher to catcher about twelve times in that inning; the three East Kelowna batters who faced him and three lousy swings at the air and then gracefully retired.

The line-up of the two teams was as follows:—  
EAST KELOWNA: A. Nott, c.; L. Smallman, 1 b.; W. Smallman, 2 b.; Garling, s.s.; H. Drought, l.f.; Drought, c.f.; Campbell, Mordie, 3 b.; Merle, r.f.; Elmore, p.  
RUTLAND: Fitzpatrick, 2 b.; Mitchell, 1 b.; K. Dalgleish, p.; A. Dalgleish, c.; Garthorne, s.s.; Kemp, 3 b.; Harrison, c.f.; C. Dalgleish, l.f.; Pow, r.f.

Umpires: Bird and Mitchell.  
Score by innings:—  
East Kelowna 0 0 2 1 0—3  
Rutland 5 1 0 2 x—8

## "POUND DISTRICT ACT"

Pursuant to the provisions of Section 11 of this Act, notice is hereby given of the appointment of A. W. DALGLEISH, of Rutland, B.C., as Poundkeeper of the pound established in the Rutland district.

The location of the pound premises is S.E. 1/4, Section 23, Township 26. D. WARNOCK, for Minister of Agriculture, Department of Agriculture, Victoria, B.C., July 13th, 1923. 49-2c

## Blue Star Line FAST REFRIGERATED STEAMSHIP SERVICE

A recent report of the B.C. Fisheries Commission points out that the value of fish hatcheries, of which there are many in this Province, all of which are kept up at public expense, depends almost entirely on the condition of the natural spawning beds in their vicinity, and especially of the liability or not of these beds being flooded or otherwise destroyed. In other words, if they are destroyed by natural causes directly afterwards. In this connection it is pointed out that practically all the fish hatcheries in Great Britain are maintained as commercial undertakings by private individuals or fishing associations and public money is therefore not at stake. In their case evident benefits must accrue or they are discontinued. However, they produce fish which live after being produced, so that this difference in method between private and public administration is worth noting.

## EMPRESS

FRIDAY AND SATURDAY,  
July 27 and 28

Carl Laemmle presents Booth Tarkington's masterpiece

"The Flirt"

A Universal Jewel Production. All star cast (and beautiful). She was a liar (and beautiful); she was a hypocrite (and kissable); she was a tyrant (and adorable); she was a cheat (and bewitching); yet no one lifted a hand against her—why?  
Comedy Attraction: "UNEASY FEET"

Sat. Mat., 3.30, 10c and 25c. Evening at 8.15, 20c and 35c.

MONDAY AND TUESDAY,  
July 30 and 31

KATHERINE MACDONALD in a Society Drama

"Money, Money, Money"

She was socially ambitious, and her father a small merchant. The type of picture which offers Miss Macdonald a pleasing role. The story points out that social recognition through the sudden arrival of a fortune does not always bring happiness.

Comedy: "FAMILY TROUBLES." International News

Evening, 7.30 & 9, 20c and 35c

WEDNES. & THURSDAY,  
August 1 and 2

Her First American Picture POLA NEGRI

"Bella Donna"

A George Fitzmaurice production. Supported by Conway Tearle, Conrad Nagel and Lois Wilson.

The genius of Pola Negri attains its really first full flower in this powerful love story. The story of a woman's love for an Arab chieftain, for which she forsakes all else, is a hundred times better than "The Sheikh."

Comedy: "TIS THE BULL."

Evening, at 8.15 25c and 55c

A number of fruit growers in the Summerland district, who shipped last year through the Summerland Fruit Union, have addressed a letter to the liquidator of that company, stating that they decline to pay the red ink charges made against them. Red ink charges to the extent of \$15,000 were made to growers by the Union on last season's operations. Those who signed the letter to the liquidator decline to acknowledge the correctness of the company's statements, until an independent firm of auditors has examined the company's books. The matter is further complicated by the fact that the contracts were of a three-cornered nature between the Union, the grower and the Central Selling Agency.

## Buyer Protected By Advertising

(Copyright)

Time was when advertising did not occupy the place in the world of trade that it does today. It has not been so very many years ago that the people were suspicious of advertising. They were inclined to believe that the merchant was trying to "fool" them with his advertising, that he exaggerated the value of the merchandise he advertised and took that method of trying to get them to buy goods that he could not sell by the old established methods of merchandising.

Those days are gone. The public now realizes that it is the greatest beneficiary of advertising.

Advertising has done more in a decade to establish certain standards in merchandise than could have been accomplished in a hundred years by any other agency. The manufacturer who a few years ago merely made and sold clothes now makes and sells the Blank brand of clothes. The man who formerly just made hats now makes Blank's hats. And so it is with everything that one buys today. The manufacturer, by his advertising, has built up his business around a trade name and if he is to continue in business he must protect that trade name by maintaining such a high standard of quality that people when they buy his products will know just what they are getting. The consumer, when he goes into a store today, does not buy merchandise blindly, with the HOPE that it will prove to be worth the money. He buys standard goods that bear the trade-mark of the manufacturer and that are backed by the reputation not only of the merchant who sells them but the manufacturer who makes them. This has been brought about by advertising.

### No Reputation To Protect

All this applies to the retail merchants as a class but it does not apply to the mail order business. The man or woman who buys goods from a catalogue house is not protected by the manufacturer of the goods, for the reason that most manufacturers who sell goods to the mail order houses do not place their names upon the goods and therefore have no reputation to protect.

The great majority of articles listed and illustrated in the mail order catalogues are included in what is known among manufacturers as "stencil" stuff. These articles bear the name of the mail order house which sells them instead of that of the manufacturer who makes them. It can readily be understood that any manufacturing concern which turns out goods that do not bear its name or trade-mark is likely to be a very unreliable institution. It is not building up any reputation on the quality of its goods, for its products have nothing to distinguish them from the products of any other concern. With no reputation to sustain and no chance of creating a general demand for its goods the only concern of a manufacturing institution of this kind is to make stuff as cheaply as possible in order to obtain the largest possible profit on its products.

### Same Price World Over

These facts are chiefly responsible for the generally prevailing idea that the home merchants do not sell goods as cheaply as the mail order house. They do sell the same quality of goods that the mail order house sells as cheaply as the mail order house sells it, but they cannot sell the standard, guaranteed products of responsible manufacturers at the same price at which the mail order house sells its nameless, unbranded merchandise. Standard goods bearing a registered trade-mark sell for the same price the world over, and the manufacturer's guarantee stands back of them when they are sold to the stores of the larger cities.

This is what the national advertising of the manufacturers has done for the consumers of the country. It has enabled them to go into their home stores and buy merchandise which they know from past experience or from the reputation and guarantee of the manufacturer will give them satisfaction. They are not buying blindly and hopefully when they buy from the merchants in their home towns. They are buying with the knowledge that they are getting their money's worth. When they buy advertised brands they are getting double protection, that which is afforded by the responsibility of the retail merchant and that which is given by the reputation and guarantee of the manufacturer. When they buy the unknown brands of goods that are offered by the mail order houses they are getting neither kind of protection.

## REPORT ON CROP AND WEATHER CONDITIONS

By Horticultural Branch, Provincial Department of Agriculture

Vernon, B.C., July 21, 1923.

**Vancouver Island and Gulf Islands**  
The strawberry crop is over. A total of 43 carloads was shipped from Victoria to the Prairies between the dates of June 14th and July 1st inclusive. Only 19 carloads were shipped in 1922 but the jam contracts were much heavier in 1922 than in 1923. Raspberries and logans are in full swing. The crop is excellent, owing to the very favourable rains early in July. Market conditions are unsatisfactory. To date five mixed carloads of logans and raspberries have been shipped to the Prairies.

The Growers Wine Co., Ltd., have started operations on the manufacture of 5,000 gallons of loganberry wine for the Liquor Control Board. Sweet cherries are nearly over; what gave prospect of an excellent crop earlier in the season turned out very unsatisfactory owing to heavy rains causing the fruit to split and the subsequent development of Brown Rot. Olivet and Morello cherries will not be ready for from two to three weeks. Pears and plums will be light. Apples will show an increase and are now sizing well.

**Lower Mainland**  
While the weather since the first of the month has been warm and fine, occasional rains, together with the increased amount of moisture available this year, have caused a very noticeable setback to the raspberry and loganberry crop. During the past week practically all the picking has been for canning and jam. The "mould" showing on the berries was very noticeable during the week of July 11th throughout the Fraser Valley. At the beginning of the week the "mould" has practically disappeared and if conditions hold, several cars will leave the Valley this week. Apples and pears are showing considerable Scab, and Brown Rot is showing up on the stone fruits. Field and main crops are looking fine, and prospects for good yields seem assured. The hay crop is exceedingly good in most places throughout the Lower Mainland.

**Vernon**  
We are now experiencing ideal growing weather. During the past week temperatures have been ranging high, and for two days we experienced fairly heavy winds. This has tended to heavy evaporation of soil moisture and in most orchards water should be applied to save excessive loss of present moisture contained in the soil, otherwise a check in the development and growth of the fruit may be expected.

During the past twenty-four hours we have had a good shower of rain and this will tend to further develop the spread of Apple Scab. Practically all the first crops of hay are now in the stack. Owing to the unsettled weather conditions during the haying period, some crops have not gone up in the best of condition. Harvesting of fall wheat is now in full swing and other grain crops are coming along in excellent shape.

**Kelowna**  
Sweet cherries are over and Olivets and Morellos are moving through the packing houses. Growing conditions for apples continue good, and the size, owing to thinning and an adequate supply of moisture, is above normal for the season.

Semi-ripe tomatoes are being picked in small quantities. This crop will not be as heavy as anticipated. Owing to the early blossoms failing to set, the crop is late.

**Penticton**  
Apricots from Kaleden and Penticton are commencing to move. The samples appear to be of excellent quality and good size.

The first Yellow Transparent apples from this district moved out from Osoyoos on Tuesday.

Sweet cherries are nearly finished. Lamberts are being moved freely.

**Creston**  
Weather continues hot with thunder showers, rendering the berries soft. Strawberries are practically over; raspberries moving in greater numbers. By the end of the week there will be a few crates of loganberries as the vines came through the winter without injury.

Cherries are also coming in in large quantities. This week chiefly Bing and Royal Annes are being shipped. The crop is light, being about 70 per cent of last year's production.

Apples are sizing rapidly, and the June drop is just about over. The crop is lighter than last year but the average size should be larger as more moisture is available in the soil than has been the case for several seasons past.

**NEW EDITION OF WRIGLEY'S DIRECTORY**  
Valuable Work Of Reference Makes Its Sixth Annual Appearance

The sixth annual edition of Wrigley's British Columbia Directory, containing 2,020 pages and giving a complete directory of the entire Province, together with complete city directories

and house guides of both Vancouver and Victoria, has just been issued.

The provincial section gives the names and locations of 2,425 separate and distinct cities, towns, villages and settlements in British Columbia, with a directory of each place, including all business and professional people, employees, farmers, fruit-growers, lumbermen, miners and fishermen in the various districts.

The Vancouver section contains a complete house guide, giving the number and the occupant of every house in Greater Vancouver, whilst the alphabetical section records the name, occupation and residence number of every business and professional man, employee and resident in Greater Vancouver. By actual count of the names contained in this section, and by using a common multiple which is employed by nearly all directory publishers, Greater Vancouver has a population of 250,554, which does not include Orientals, of whom there are estimated to be 15,000.

Similarly, the Victoria section contains a complete alphabetical and house directory of the entire city of Victoria, and includes Oak Bay, Esquimalt and Saanich Municipalities, the names and residences of all citizens residing in this territory being stated. The population of Victoria is placed at 66,144.

The classified section is arranged alphabetically under 714 headings, and gives the names of all business firms, manufacturers, wholesalers and distributors in the entire Province. The leading centres of population are as follows: Anyox, 2,000; Britannia Beach, 1,000; Chilliwack, 2,000; Cranbrook, 3,000; Fernie, 4,750; Grand Forks, 2,000; Kamloops, 5,000; Kelowna, 3,000; Nanaimo, 10,000; Nelson, 6,000; New Westminster, 18,000; North

Vancouver, 9,000; Ocean Falls, 2,000; Penticton, 4,000; Prince George, 3,000; Prince Rupert, 6,300; Revelstoke, 3,500; Rossland, 3,000; Trail, 4,500; Greater Vancouver, 250,554; Vernon, 4,500; Victoria, 66,144.

Besides Prince Rupert and Prince George, some of the towns in the north which are forging to the front and are becoming important centres include: Terrace, 900; Smithers, 850; Quesnel, 500; Vanderhoof, 350, and Burns Lake, 300.

It is interesting to note that in 1918 there were only 2,010 places in the Province as compared with 2,425 at this time; that it only required 964 pages to print the directory in 1918, while the present book comprises 2,020 pages, and that there has been an increase of 91 in the listing of new places within the Province during the past year.

Wrigley's British Columbia Directory for 1923 is undoubtedly the largest job of printing ever carried out in Vancouver. Five tons of paper were used in its publication and, laid end to end, the pages of the book would cover a distance of 840 miles. Ten tons of type metal was used, and the presswork consumed 5,500 kilowatts of electricity. Twenty-six men were employed in the printing of the book for an average period of four months. Completion required a staff of thirty-two persons, who have been constantly and busily engaged for an average period of six months in gathering, compiling, tabulating and checking the vast and varied amount of information which goes to make up this directory. All of these employees, as well as the printing staff, are permanent residents of Vancouver.

Copies of Wrigley's British Columbia Directory are placed in libraries and with Boards of Trade in the principal cities of Eastern Canada, England and parts of the United States, as a guide for sightseers and tourists.

pal cities of Eastern Canada, England and parts of the United States, as a guide for sightseers and tourists.

## GAME REGULATIONS FOR 1923

(Continued from page 1)

altogether. In the Electoral Districts of Columbia, Fernie, Cranbrook, Cariboo and Lillooet, one.

**Game Birds**  
Pheasants.—Four in one day; total bag limit, 12.  
Quail.—Daily bag limit, 10; total bag limit, 50.

Grouse and Ptarmigan.—Six of one species, or twelve of all species in one day; total bag limit, 50.

Ducks.—Daily bag limit, 20; total bag limit, 150.

Geese and Brant.—Daily bag limit, 10; total bag limit, 50.

Black-breasted and Golden Plover and Greater and Lesser Yellowlegs.—Daily bag limit, 15 in the aggregate of all kinds; total bag limit, 150 in the aggregate.

Wilson Snipe.—Daily bag limit, 25; total bag limit, 150.

Coots.—Daily bag limit, 25; total bag limit, 150.

## GENERAL PROVISIONS

The prohibitions declared by Sub-section (1) of Section 34 of the "Game Act," as to the buying, selling and having in possession of big game, so far as they relate to game lawfully killed or taken, are removed in regard to bear, in the Eastern District, from September 15 to June 30, 1924.

The open seasons declared by these regulations shall not apply to the hunt-

ing, taking or having in possession of Quail, Pheasants, Prairie Chicken or Partridges when snow is on the ground.

No game birds shall be hunted from an automobile or any other vehicle either off or on a highway at any time.

## MOSAICS

(Bulletin of the Social Service Council  
of Canada).

You've seen them in Italy, of course; old mosaics chipped and broken and crumbling and picturesque, with here and there a group of little squares and hexagons that have withstood the ravages of time and the elements, fascinating the traveller all the more because of the decay and imperfection of the broken tesserae about it. "Here's a perfect bit," you say; and you stand wondering at its beauty. Why did it outlast the rest of the mosaic? Better material? Better workmanship? Both perhaps. And your mind goes travelling inquiringly back over the centuries and loses itself in a maze of vague wondering.

You've looked at mosaics elsewhere, too—and laughed at some of them, no doubt. There's that odd mosaic of health beliefs, for instance, that is so fascinating. Here is a person who reads all the patent medicine advertisements in the yearly almanac and buys up most of them because he's sure he has all the symptoms they describe; there is a Montevideo lady sitting at home wrapped in an uncomfortable combination of furs and hot water bottles because she thinks artificial heat highly injurious; there again is an Indian medicine man creating an infernal noise for the purpose of quieting a delirious patient. From all corners of the world contributions are made to this interesting pattern. Parts of the mosaic have crumbled, others are beginning to show signs of wear; and every now and then a marvellous new piece is added.

Have you noticed that little square that a Canadian city has contributed? Solid as any in the whole pattern, we hope. It is a city that is building the

health of its people on the foundation of a vigorous infancy. Only a few years ago its record was a little less than moderately good. In 1919, for instance, it lost 116.7 infants under one year of age out of every thousand babies born. That is to say more than one out of every ten died before completing the twelfth month of life. That city had by 1919 begun to waken up, however, and it did a number of things without delay. Of course it began by forming an association. It also set aside an office for the work of the association. And, then it took hold of the education of the citizens thus being established a weekly pre-natal clinic where expectant mothers were taught the simple laws of health and personal hygiene, and helped them to develop the habit of conforming to these. It established five Well Baby Clinics to which babies report weekly to be weighed and measured and examined generally, while the mother and the nurse in charge discuss diet and clothing and temperatures and ventilating and other kindred matters. The baby gets every possible chance to be healthy and happy and well-trained. But if the nurse finds that he shows signs of departing from the strait and narrow road that leads to a life of health, off he goes to the Sick Baby Clinic, where he is put under the care of a physician. Last year the four trained workers in the baby clinics reached one quarter of the children under five years of age in that city, and made 5,327 visits to the homes of children under supervision.

And the city has reason to be proud of its experiment and of the establishment of this new public utility. The education of the citizens thus being promoted has resulted in the infant mortality rate being cut in half within three years. Here are the figures: In 1919 the death rate among infants was 116.7 per 1000 live births; in 1920, 104 per 1000 live births; in 1921, 80.7 per 1000 live births; in 1922, 65.5 per 1000 live births.

That city was London, Ontario. Do you know what contribution your own community is making toward the Canadian section of the world's health mosaic?

## DEFINED

The visitor was examining the classless. "Can any little boy tell me what a fish net is made of?" he enquired. "A lot of little holes tied together with strings," smiled the never-failing bright boy.—Wesleyan Advance.

"Stop, will ye, Murphy," cried Pat, as he was being let down into a well that needed repairs. "Oi want to come up again." "What for?" asked Murphy. "Never moind," replied Pat; then, when he found himself still being let down, he shouted, "If ye don't stop Oi'll cut the rope."

"Deduction is the thing," declared the amateur detective. "For instance, there is a pile of ashes in our yard. That is evidence that we have had fires this winter."

"And, by the way, John," broke in his wife, "you might go out and sift that evidence."

## IN THE REALM OF FIELD SPORTS

## LACROSSE

## Vernon 4, Kelowna 1.

Playing in rain on a wet field at Vernon last Thursday afternoon, the local senior lacrosse team went down to defeat after a hard struggle to win. Considering the slippery condition of the field, play was quite fast. It was a very clean game; a notable feature was that no player was penalized during the entire playing period, and the small crowd of spectators were treated to a fine exhibition of the national game in which they had the satisfaction of seeing their home team win. No doubt the weather conditions kept many away who would otherwise have been there. Both sides demonstrated that they can play without resorting to foul tactics, and the game must have created a very favourable impression of both teams on the spectators.

The ball was faced off about 15 minutes after the advertised hour, Vernon getting away. Kincaid is forced to clear a shot right at the start, but soon the Kelowna men return the compliment and Richards is obliged to defend his goal. Then there follows repeated attacks and shots on the Kelowna net, which Kincaid and his defence men are able to clear. Neill takes the ball on a rush towards Vernon goal and a shot results which Richards clears and there is a short period of end to end passing. McPhee and DeHart both send in shots that are wide, and the first quarter ends without a tally for either side.

After the rest period Kelowna get the face-off and a nice bit of defence work by Watt results in a shot which Richards clears. I. Johnston is having a busy time checking Kennedy and succeeds fairly effectively. About four minutes after the opening of the second period, the Vernon team score the first goal of the game. E. Johnston doing the needful. Having found the net, the Vernon players seem determined to increase their advantage and play is mostly around the Kelowna goal with but an occasional short-lived attack on the Vernon stronghold, and just about two minutes before half-time Edwards scores goal number two for Vernon. The period ends without any further scoring and, while Vernon were leading by two goals, both teams seemed to be playing fairly even and at half-time Kelowna's chances didn't look as bad as the goals might indicate.

Resuming after the usual half-time interval, the Orchard City team are first on the field. On facing off they get away to a fast attack on Vernon's territory, where our home are baffled time and again by the excellent defence of Johnston, Simms and Redgrave. It is now becoming apparent that the Vernon team are playing good combination while the vigorous Kelowna team is disorganized. The Kelowna team individual play being indulged in to a more than ordinary extent and hardly any of our shots on Vernon goal in this period being dangerous. Our defence, on the other hand, are all doing good work, "Scotty" Neill and "Bernie" Raymer being especially effective. The whistle blows with the score unchanged.

At the opening of the last quarter the condition of the field was by no means ideal, being very slippery. Vernon get away on the face-off but it is apparent that every man on the Kelowna team is out to win and the play is soon at their opponent's end of the field. However, the greasy ground and Vernon's stellar defence combine to keep their goal intact. Time and again our defence men go up to help the home to break down their opponents, and finally Fowler gets the ball past Richards for our first and only goal. Shortly after this Mutrie, on an individual rush, scores goal number three. With but a few minutes more to go, the game is practically over and just as time is up Vernon add the fourth goal to their credit. W. Spear was unable to play owing to sickness.

The teams were:

Kelowna	goal	Vernon
Kincaid	point	I. Johnston
Neill	c. point	Simms
B. Raymer	1st def.	Redgrave
Watt	2nd def.	L. Morris
Caldwell	3rd def.	E. Johnston
DeHart	centre	Gray
C. McMillan	3rd home	Edwards
Day	2nd home	Evans
Shillingford	1st home	Clarke
McPhee	o.s. home	C. Norris
Kennedy	inside home	Christian
E. Wilson	spares	Carow
Gordon		
W. Raymer		
A. McMillan		

Referee: W. Lingings, Armstrong.  
Timekeeper for Kelowna: W. J. Buse.

## League Standing

	Won	Lost	Tie
Armstrong	3	0	0
Vernon	2	3	0
Kelowna	1	3	2

The seniors are playing in Armstrong today. Next Thursday, Vernon and Armstrong clash. On August 9th, Vernon will play here.

## INTERMEDIATE LACROSSE

The Kilties will play the first game for the Intermediate Championship of the Interior against Salmon Arm, in the Athletic Park here, on Thursday afternoon, August 16th. A dance is being arranged for the same evening, particulars of which will be given later.

## BASEBALL

## Morrison Cup Finals

## Glenmore 9, Elks 4.

On the local diamond in the Kelowna Athletic Park last Friday evening, Glenmore evened up with the Elks by beating them on their own grounds in return for the same treatment meted out by the Elks to them at Glenmore in the game on Tuesday evening of last week.

Friday's game brought out a better than usual crowd of fans and they were treated to a very good game of ball, which was very evenly contested up

## ELKS WIN FINAL GAME IN MORRISON CUP SERIES

Elks 16, Glenmore 7  
At the Glenmore diamond last Tuesday evening, before the largest crowd of the season, the Elks demonstrated their right to retain possession of the Morrison Cup for another year by defeating Glenmore.

The game was handled by Dr. MacEwen behind the bat and A. E. James on bases, their decisions meeting with general approval.

The teams were:  
Glenmore: Alexander, s.s.; A. Free, c.f.; Watt, 3 b.; Whitham, r.f.; Kerr, l.f.; Seath, 1 b.; LeQuesne, p.; Vint, 2 b.  
Elks: McLeod, c.f.; Reed, 3 b.; Kincaid, s.s.; McClymont, 1 b.; DeHart, p.; Hill, l.f.; Lewis, 2 b.; White, c.; Wyrzykowski, r.f.

Score by innings:  
Glenmore ..... 0 0 2 0 2 5 = 9  
Elks ..... 0 0 2 0 2 0 = 4

## FOOTBALL

## Robertson Cup Tie

The Vernon eleven are playing the Kelowna team at the Athletic Ground this afternoon the first of two games in the first round of the Robertson Cup. Kelowna play a return match in Vernon early next week, the exact date not yet being definitely fixed. Delay in arranging the dates for these games is due to a misunderstanding between the executive at Kamloops and Vernon.

Some interesting statistical information was recently given by Hon. J. D. MacLean, Provincial Secretary, on the occasion of his laying the corner stone of the new "acute mental hospital" at Essondale. According to figures made public by him on that oc-

casation, three out of every thousand persons in B.C. are insane enough to have to be confined in that institution, which contains 1,700 inmates at the present time. The cures, he stated, to average approximately twenty per cent, and the per capita cost of the mental hospital is '76 cents per day.
